# MSc Economic Development and International Trade

Awarding InstitutionTeaching InstitutionFaculty of Economic and Social SciencesFor students entering in 2004Programme Director:Mr M. McQueenBoard of StudiesMA/MSc EconomicsAccreditation:N/A

The University of Reading The University of Reading Programme Length: 9 or 12 months Date of Specification: September 2004

### Summary of programme aims

The programme aims to provide a thorough postgraduate education in the specialist area of economic development and international trade. The compulsory modules provide a critical understanding of current theories and empirical research in the field of knowledge and students will develop a practical understanding of the application of this knowledge within an institutional framework. They will learn to evaluate alternative theories and methodologies and to make judgements on their applicability to complex issues where there is incomplete information.

### Transferable skills

The programme requires a substantial amount of independent reading, research and study and students are expected to take personal responsibility and show initiative in developing their knowledge and understanding of the field of study. They will also need to enhance their skills in communications (both written and oral), information handling, numeracy, problem-solving, and the use of information technology. Students will work under pressure of time throughout the programme and will learn to set priorities and manage their time in order to meet strict deadlines. Career planning will be an integral part of the programme, both in the choice of programme and in its elective components.

#### **Programme content**

Students register *either* for a 9-month taught programme *or* a 12-month programme comprising taught modules and a dissertation.

Students may request a transfer between 9 month and 12 month programmes. Such requests must be made by the end of the Autumn Term to the Head of Department of Economics. Appeals against the decision may be made to the Head of the University of Reading Business School whose decision is final.

| Module | Module Title   | Credits | Level |
|--------|--|---------|-------|
| Code   |  |         |       |
|        | Compulsory Modules   |         |       |
| ECM57  | Trade Policies for Developing Countries                        | 20      | Μ     |
| ECM26  | Macroeconomic Policy in Developing Countries                   | 20      | Μ     |
| ECM27  | Macroeconomic Policy and Structural Adjustment for             | 20      | М     |
|        | Developing Countries   |         |       |
| ECM36  | Developing Countries in the World Economy                      | 20      | Μ     |
| ECM58  | Private Sector Development for Low-Income Countries            | 20      | Μ     |
|        | 9 month degree   |         |       |
| ECM59  | Research Project   | 20      | Μ     |
|        | 60 credits of modules selected from the elective list with the |         |       |
|        | exception of modules ECM03, ECM04, ECM08, ECM09,               |         |       |
|        | ECM22, ECM23, MMM021, MMM022, MMM025, and                      |         |       |
|        |  |         |       |

subject to fulfilling the pre-requisites for these modules *12 month degree* 40 credits of modules selected from the elective list with the exception of modules ECM03, ECM04, ECM08, ECM09, ECM22, ECM23, MMM021, MMM022, MMM025, and subject to fulfilling the pre-requisites for these modules. A dissertation, ECM046 (40 credits) of no more than 12,000 words on a topic agreed by the Director for Dissertations and Projects.

#### Part-time/Modular arrangements

The programme may be studied part-time over two consecutive years by arrangement with the Director of Studies for MSc Programmes. The dissertation, if selected, will be presented by 5.00 p.m. on the first Friday in September at the end of the second year of study.

## **Progression requirements**

Students wishing to proceed to a higher degree by research should normally have followed the 12 month programme and obtained an average of at least 60% in the modules and at least 60% in the dissertation.

### Summary of teaching and assessment

Teaching is organised in modules. The delivery of material varies among the modules, especially in the proportion of time allocated to lectures, classes and seminars. All modules involve coursework, which takes a variety of forms reflecting the aims of the module. Final assessment of the modules involves a 2 hour examination (weight 70%) and coursework (weight 30%). Students selecting a dissertation are required to take ECM28 Introductory Econometrics and to do the coursework (which carries a weight of 10%) but not the examination. A dissertation supervisor is appointed for each student. The University's taught postgraduate marks classification is as follows:

| Mark               | Interpretation                |
|--------------------|-------------------------------|
| 70-100%            | Distinction                   |
| 60-69%             | Merit                         |
| 50-59%             | Good Standard (Pass)          |
| Failing categories |                               |
| 40-49%             | Work below threshold standard |
| 0-39%              | Unsatisfactory Work           |

To pass the MSc students must gain an average mark of 50 or more overall. In addition the total credit value of all modules marked at 40-49% must not exceed 40 credits and no module mark must fall below 40%. For the 12-month programme 50% or more in the dissertation is also required.

Students who gain an average mark of 70 or above, including a mark of 70% or more in the dissertation (if applicable) and no mark below 50% will be eligible for a Distinction. Those gaining a mark of 60%, including a mark of 60% or more in the dissertation (if applicable) may be eligible for a Merit pass.

#### **Admission requirements**

(a) Entrants to this programme are normally required to have obtained an upper second class honours degree or equivalent. The additional requirements for the

programme can be obtained from the pre-requisites of the core modules of the programme.

(b) Admissions Tutor: Mr M. McQueen

#### Support for students and their learning

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers, and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Student Access to Independent Learning (S@IL) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Programme Directors, the Careers Advisory Service, the University's Special Needs Adviser, Study Advisers, Hall Wardens and the Students' Union.

The Programme Director acts as personal tutor to the student and also interviews every student before the beginning of term to offer advice on the operation of the degree programme and on the choice of options. Many of the students are from countries outside the UK and tutors are therefore careful to ensure that students settle down in their new surroundings and understand the requirements of the MSc programme. The initial interview is also useful in detecting whether students have some language problems (despite obtaining an IELTS score of 7.00), in which case they are strongly advised to register for language tuition. All Autumn term modules set a test at the end of the term with the primary purpose of familiarising students with the UK examination system and the requirements of the programme. Students who fail overall on their modules are identified and invited to discuss their problems with their tutor. In addition to lecture and class times, each module lecturer has appointed office hours during which they may be consulted without prior appointment. The Department of Economics also provides a Handbook with details of each module and a Handbook covering the MSc programmes as a whole, including details of the method of assessment of programmes.

#### **Career Prospects**

Most of the students come from outside the UK and return to employment in their home countries (sponsored students return to their Ministry/Central Bank). UK students enter a variety of occupations, but over the years a number have obtained highly competitive ODI Fellowships, entered the public sector (DFID, FCO, DTI) or international consultancy. A minority of students proceed to a PhD and enter academic/research or international organisations.

## Opportunities for study abroad or for placements

None

#### Educational aims of the programme

The programme provides a thorough postgraduate training in international trade and development, with an emphasis on the application of theory and technique to international trade policy issues. It aims to produce economists who could be employed in an advisory capacity in national or international organisations and who have a good knowledge of the institutional environment in which policy making takes place.

# 12. Programme Outcomes

|                                    | Knowledge and Understanding  |               |   |  |  |
|------------------------------------|--|---------------|---|--|--|
| A. Knowledge and understanding of: |  |               | Teaching/learning methods and strategies  |  |  |
| 1.                                 | Alternative models of trade and<br>industrialisation in developing<br>countries.   | $\rightarrow$ | Formal lectures, discussions, individual and<br>group presentations, guided reading and<br>guidance on key sources of reference |  |  |
| 2.                                 | The most recent empirical results on<br>the effects of alternative trade and<br>macroeconomic policies on key<br>economic and social indicators of<br>development. |               | material. Feedback and guidance are<br>important elements complementing an<br>emphasis on self-study.                           |  |  |
| 3.                                 | The international institutional<br>environment affecting the economic<br>developing of the developing<br>countries.  |               | Unseen examinations and coursework comprising long essays, projects and tests   |  |  |
| 4.                                 | Alternative trade and<br>industrialisation policies for<br>countries at different levels of<br>development and with different<br>resource endowments.              |               |   |  |  |

|    |                                    |               | Assessment                                      |
|    |                                    |               | Unseen examination and coursework with 3        |
|    |                                    |               | being assessed mostly in essays and project     |
|    |                                    |               | work.   |

Please note: This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably expect to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in module and programme handbooks.

# ELECTIVE MODULES LIST

Please note that not all the modules will be available every year The available modules list will be produced by the Department of Economics
