**Summary of programme aims**

The programme in French and Linguistics seeks to develop students' intellectual potential, enabling them to embark on a wide range of careers or postgraduate studies. The French part of the programme aims to produce graduates who are competent communicators in French, who have a sound critical understanding of French and francophone culture, history and politics, and who have acquired a range of skills to underpin their life-long development. The Linguistics part of the programme aims to enable students to achieve their full intellectual potential by means of the rigorous and critical study of language; to provide students with the foundation skills for further independent study and research; and to equip them with a range of transferable skills of potential value to future employers.

**Transferable skills**

The University's Strategy for Teaching and Learning has identified a number of generic transferable skills which students are expected to have developed by the end of their degree programme. In following this programme, students will have had the opportunity to enhance their skills relating to communication (both written and oral), information handling, problem-solving, team working, information technology (word-processing and use of web-based material) and career management. Students on this programme are also expected to have gained experience and show competence in the following transferable skills in addition to those prescribed by the University: use of library resources, self-reliance, cultural awareness.

The French part of the programme also aims to equip students with the ability to seek and identify sources of information; make articulate written and oral presentations; conduct lucid arguments in support of a case, using evidence appropriately; analyse the form and content of written and audio-visual communications; appreciate the mentality and outlook of people from another culture or age; articulate in rational discourse the expression of emotion; and develop sound work discipline, including commitment to deadlines and time management.

In the linguistics part of the programme, students are expected to have an appreciation of the principles of the scientific study of language; a knowledge of the nature of language, and an understanding of the role and significance of language in the individual and society; practical skills in the analysis of language; a range of transferable intellectual skills including the ability to synthesise, analyse and evaluate information and theoretical claims and to communicate effectively through written and oral reports to varied audiences; the ability to work independently and co-operatively; and an awareness and experience of the application of information technology to language studies, and basic computing skills.

**Programme content**

The following profile states which modules must be taken (the compulsory part), together with lists of modules in any Part from which students must make a selection (the option modules). Students must choose such additional modules as they wish, in consultation with their programme advisor, to make 120 credits in each Part. The number of credits for each module is shown after its title.

**Part 1 (three terms) Certificate Level**

Students must take at least 40 credits in French and 40 credits in Linguistics.  
A further 20-credit optional module in French and/or in Linguistics may be taken if desired.

Additional modules, to a total of 120, should be chosen from those offered in the Part 1 Handbook.

### Year Abroad (three terms in a French-speaking country)

In this Part, students will take a further 120 credits, made up as below.

The French Oral module is examined in Reading at the beginning of Part 3.

For credit accounting purposes, the Dissertation is listed as two distinct modules, FR3LS contributing 20 credits in French in the Year Abroad, and LS3FR contributing 20 credits in Linguistics in Part 3, but its preparation and completion are conceived and assessed as a single piece of work contributing 40 credits to the whole programme.

### **Progression requirements**

To proceed from Part 1 to Part 2, or from Part 2 to the Year Abroad, students must have obtained an overall average of 40 % in the 120 credits in the Examination as a whole, and achieved not less than 30% in any module except that marks of less than 30% in a total of 20 credits may be considered, provided that the candidate has pursued the course for the modules with reasonable diligence and has not been absent from the examination without reasonable cause.

In addition, in Part 1 and in Part 2, students must have obtained a mark of at least 40% in each of their compulsory modules in French and 40% average across the compulsory Linguistics modules.

To proceed from Year Abroad to Part 3, students must satisfy the examiners that they have completed an approved programme of study or employment in a French-speaking country.

### **Summary of teaching and assessment**

#### ***In French***

In French, FR103 is taught by lecture to the entire year group accompanied by small-group teaching in seminars. FR104 is taught by lecture with integrated group and pair work. The structure of the content modules in Parts 2 and 3 allows for classes normally of no more than 12 students. These classes will normally be conducted through a combination of lecture and seminar discussions. All language teaching is based on work in groups of no more than 15 students except for the grammar component of FR201 which is taught by a mix of lecture to the entire year group and supplementary internet material for student self-access. Part 1, Part 2 and Part 3 modules are assessed by coursework and/or formal examination. The Year Abroad French Oral is examined in the Autumn Term of Part 3.

#### ***In Linguistics***

Modules are taught by lectures, seminars and small group practical work. The Dissertation module additionally is supported by individual supervision. Language modules are taught in small groups. Some modules are assessed wholly by coursework, some wholly by examination, and others by a mixture of the two: details are given in the module descriptions.

The Year Abroad modules will derive credits from marks obtained in examinations set by the foreign university.

#### ***Weighting***

In order to be eligible for a four-year Bachelor's degree in the School of Modern Languages which incorporate a language year abroad a candidate must have completed 480 credits (of which not less than 180 shall normally be at H level or above, except in the case where a candidate is deemed to have achieved a Pass). The conventions for assessment and classification are included in the Programme Handbook, but it should be noted that Part 2 modules and Year Abroad I-level modules will count for 33% of final assessment, and Year abroad H-level modules and Part 3 modules will count for 67% of final assessment.

### **Admission requirements**

Entrants to this programme are normally required to have obtained 280 points from 4 subjects ('A' or 'A/S' levels), including 2 full 'A' levels. Candidates must normally have either 100 points (Grade B) from GCE 'A' level French to take FR101 (Advanced French Language) in Part 1, or 50 points at 'A/S' French or an A\* at GCSE French to take FR102 (Intermediate French Language) in Part 1.

*Mature applicants.* Applications from mature candidates are welcomed. While such candidates will normally be expected to have either 100 points (Grade B) from GCE 'A' level French to take FR101 (Advanced French Language) in Part 1, or 50 points at 'A/S' French or an A\* at GCSE French to take FR102 (Intermediate French Language) in Part 1, consideration is also given to other qualifications and experience. A mature applicant is more likely to receive an offer of a place if he or she has undertaken recent study, for example two or more A levels or an Access course, but each case is assessed on its individual merits. We recommend that you contact an admissions tutor as soon as possible to discuss your individual circumstances.

*International applicants.* Applications from international candidates are welcomed. International candidates are advised to contact either the EU or the international admissions tutor first, to discuss the suitability of their qualifications.

### **Support for students and their learning**

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Student Access to Independent Learning (S@IL) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided through the University's Personal Academic Record (PAR) Scheme, in which students meet their Personal Tutors regularly to review their progress, and through the Careers Advisory Service, the University's Special Needs Advisor, Study Advisors, Hall Wardens and the Students' Union.

At Part 1, students receive an induction course in Academic Writing. Each student is provided with a course handbook which contains full details of the degree programme, the staff and facilities in the School of Modern Languages and the School of Linguistics and Applied Language Studies, and a range of useful information including advice on note-taking in lectures, preparation of written work especially the dissertation, and dates of terms and examinations, and the University's procedure for assessment. Each Part of the programme has a Course Tutor to advise students on selection of modules, learning and assessment.

Learning on core modules is supported by small group seminars. Learning is also supported by dedicated facilities in the School. The Corpus Facility has 6 networked PCs that are intended in the first instance for students researching corpora and databases, such as the British National Corpus and CoBUILD. We also have our own research corpora and databases, and these can be accessed from these machines. The facility uses the very latest software in language and speech analysis. Also available for students are word-processing and statistics, e-mail, and Internet access. Further PCs are located in the student common room for student use. The Speech Research Laboratory is well equipped with a wide range of instrumentation for the investigation of many aspects of speech, and the technical staff and phonetics lecturers are available to advise and help with its setting up and use. The Communication Disorders Centre includes a speech and language therapy clinic in the local NHS Trust, and provides students with opportunities for learning and research. There is also a Language Acquisition Laboratory, which provides an essential testing ground for linguistic theories.

### **Career prospects**

Students graduating in Linguistics are equipped to enter a range of professions that obviously concern themselves with written or spoken language: for example, publishing, broadcasting, advertising and translating, as well as academic Linguistics. In some cases, further study and qualifications will be necessary, for which Linguistics forms an excellent foundation, as in teaching, including second and foreign language teaching, and speech and language therapy. More broadly, employers have come to recognise that graduates in Linguistics have the ability to organise complex data and to work in IT environments, and these are skills that are in demand in many types of employment that are not directly concerned with language.

Graduating in a foreign language allows students to work in many different fields. Some use their language skills in teaching, including teaching English as a foreign language abroad; others proceed to postgraduate courses in various areas, including translating. A degree involving a foreign language can also, like degrees in other arts subjects, lead to careers in such areas as administration, management or marketing, or be a prelude to study in law or accountancy; and increasing numbers of students find positions in the business

world, including the travel industry, where their knowledge of a foreign language can be a distinct asset.

### **Opportunities for study abroad or for placements**

Subject to arrangements made in exceptional cases only, all students on this programme in French and Linguistics spend a Year Abroad either as an assistant teacher, on work placement or at an institute of higher education with which the University of Reading has a Socrates agreement.

### **Educational aims of the programme**

The French part of the programme aims to enable students to achieve a high level of understanding of the language, culture and society that may be applied to their further studies and career.

By the end of the programme, students are expected to be able to:

- understand native-spoken French within an educated French environment and to communicate orally with fluency and accuracy;
- read with understanding, critical judgement and evaluation a range of specialist and non-specialist cultural, factual and other texts;
- write accurately in French with an appropriate understanding of the implications of register and style.

The programme in Linguistics aims to enable students to achieve their full intellectual potential by means of the rigorous and critical study of language; to develop students' skills in core areas of linguistics including phonetics, phonology, syntax and semantics; to allow students to develop their own interests in the applications of linguistics in a variety of areas; to provide students with the foundation skills for further independent study and research; and, by exposing students to a variety of learning experiences, to equip them with a range of transferable skills of potential value to future employers.

## Programme Outcomes

The programme provides opportunities for students to develop and demonstrate knowledge and understanding, skills, qualities and other attributes in the following areas:

## *Skills and other attributes*

### **B. Intellectual skills – able to:**

#### **In French**

1. Critically apply literary and historical concepts
2. Identify and solve problems
3. Analyse and interpret
4. Demonstrate and exercise independence of thought and sensitivity to cultural difference

#### **In Linguistics**

1. Think logically
2. Analyse and solve problems
3. Operationalise abstract concepts for testing of hypotheses
4. Assimilate rapidly-evolving concepts and models of language
5. Generalise knowledge and methods from one area of study to others
6. Plan, carry out and present an extended independent investigation of a research topic

### **Teaching/learning methods and strategies**

#### **In French**

The variety of assessment methods employed places great emphasis on the learner's ability to demonstrate skills 1-4 through the production of coherent written and oral responses to the tasks set.

#### *Assessment*

The variety of assessment methods employed places great emphasis on the learner's ability to demonstrate skills 1-4 through the production of coherent written and oral responses to the tasks set

#### **In Linguistics**

1-2 are achieved through demonstration and example in all lectures and small group seminars; additionally, through language practicals at Parts 1 and 2, and the Part 2 module *Research Methods*, and through the *Dissertation* at Part 3.

3 is achieved mainly through the Part 2 module *Research Methods*, and through the *Dissertation* at Part 3.

4 is achieved through the progression of concepts particularly in the modules *Sounds, Grammar and Meaning* especially those in core and applied areas at Part 3.

5 is achieved through the combination of core and applied modules at Parts 1, 2 and 3.

6. is achieved through the Part 2 module *Research Methods*, and through the *Dissertation* at Part 3.

#### *Assessment*

1-5 form part of the evaluation of the quality of students' coursework and their written examinations. Additionally, 6 is assessed through small-scale and subsequent larger project work, respectively, in the modules *Research Methods*, and the *Dissertation*.

**C. Practical skills – able to:**

**In French**

1. Speak, write, read and understand French at high or a near-native level of proficiency;
2. Apply key methods and concepts of linguistic analysis;
3. retrieve, sift and select information from a variety of sources;
4. plan and undertake different forms of research based on bibliographies and/or evidence.

**In Linguistics**

1. Perceive, produce and transcribe a full range of sounds produced by the human vocal tract
2. Analyse an unknown language at all levels of linguistic organisation
3. Identify patterns in complex linguistic data and account for them in terms of appropriate levels of representation and generative rules
4. Address and assemble the information contained in modern electronic linguistic corpora
5. Run appropriate statistical tests on numerical data

**Teaching/learning methods and strategies  
In French**

All students receive initial guidance on how to identify, locate and use material available in the university and departmental libraries and elsewhere. Comprehensive bibliographies are provided at the outset of each course. Classes and tutorials are given to all students on the production of essays and literary, historical or linguistic concepts. Language classes are compulsory in every year, and much primary and secondary reading material is in French. The year abroad further promotes the active learning of French to a high level.

*Assessment*

Skill 1 is assessed by orals and unseen written examinations. There is regular unassessed coursework. Skills 2-4 are assessed through a pattern of coursework essays, unseen written examination and dissertation.

**Linguistics**

1 is achieved through small group phonetics practical sessions, based on general information provided in the main core lectures on the sounds of language.

2-3 are achieved through small group language practical sessions at Parts 2 and 3 which exercise field linguistic techniques, based on lectures on the core areas of language structure and function; also, through the Part 2 module *Research Methods*, and through the *Dissertation* at Part 3.

4 is achieved through introductory sessions and assignment in the module *Research Methods*, and through the option module *Computer-Based Corpus Studies*.

5 is achieved through the Part 2 module *Research Methods*

*Assessment*

1 is assessed by oral examination.

2-5 are assessed by assignment;

3-4 are additionally assessable by written examination, and 5 by evaluation of the *Dissertation*

**D. Transferable skills – able to:**

**French**

1. structure ideas and communicate them effectively orally and in writing;
2. manage time and work to deadlines;
3. participate effectively in groups;
4. work independently;
5. find information and use information technology;
6. be responsible and self-reliant; assess the relevance and importance of the ideas of others.

**Linguistics**

1. use IT (word processing, using standard and statistical software)
2. define a research topic and mount a principled investigation by means of hypothesis-formulation and testing
3. give oral presentations
4. work as part of a team
5. use library resources
6. manage time
7. formulate and implement career plans

**Teaching/learning methods and strategies**  
**French**

All courses require regular written and oral work, enabling the student to develop understanding and the need for effective and coherent expression (skill 1). Skill 2 is learnt through the management of different deadlines for different courses within the programme and is a focus of initial one-to-one session under the PARS student development scheme. Skills 3-6 are developed from the outset in seminars or interrupted lecture. Skill 6 is a particular focus of the year abroad, its importance being taught during preparatory session in Part 2. IT skills are encouraged and developed by being an integral part of much teaching from year 1 onwards. Careers Management Skill development is an integral part of Part 2 and the year abroad with students undertaking appropriate activities.

*Assessment*

1 is assessed by coursework and is also assessable in the *Dissertation*  
2 is assessed by group presentation and individual writing up of the project carried out in the Part 2 module *Research Methods*, and in the *Dissertation*  
3 is assessed by staff observation and contributes to coursework on relevant modules  
4-6 are not specifically assessed but contribute to success in forms of assessment generally

**Linguistics**

1-6 are achieved through the Part 2 module *Research Methods*  
2, 5 and 6 are additionally achieved through the *Dissertation*  
3 is additionally achieved in a number of option modules, and in the *Second Year Conference*  
5 and 6 are also required for successful execution of assignments throughout the programme  
7 is achieved through the 5-credit Part 2 distributed module *Career Management Skills*

*Assessment*

1 is assessed by coursework and is also assessable in the *Dissertation*  
2 is assessed by group presentation and individual writing up of the project carried out in the Part 2 module *Research Methods*, and in the *Dissertation*  
3 is assessed by staff observation and contributes to coursework on relevant modules  
4-6 are not specifically assessed but contribute to success in forms of assessment

**Please note - This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the module description and in the programme handbook. The University reserves the right to modify this specification in unforeseen circumstances, or where the process of academic development and feedback from students, quality assurance processes or external sources, such as professional bodies, requires a change to be made. In such circumstances, a revised specification will be issued.**
