Summary of programme aims

The programme aims to provide a framework, both practical and intellectual, for the development of a personal practice in Art.

Transferable skills

The University's Strategy for Teaching and Learning has identified a number of generic transferable skills which all students are expected to have developed by the end of their degree programme. In following this programme, students will have had the opportunity to enhance their skills relating to career management, communication (both written and oral), information handling, numeracy, problem-solving, team working and use of information technology.

Within the Fine Art programme students will develop visual awareness and dexterity. They will extend their abilities in visual, oral and written communication including the use of presentational aids. Students will learn to set their own goals, identify and independently pursue their aims. Students will develop research skills including the ability to locate and assemble visual and written material, they will engage in evaluative analysis of visual and critical sources. They will acquire basic knowledge of a range of materials, tools, machinery and technological skills. Students will extend their experience of working to a brief, meeting deadlines, planning, team working, problem solving and career management.

Programme content

The profile which follows states which modules must be taken (the compulsory part), (together with optional Fine Art modules for Part 1). Part 1 students must choose which additional modules they wish to take from within the department and the faculty to make 120 credits in Part 1. The number of credits for each module is shown after its title.

Part 1 introduces the range of contemporary art practice and a guided introduction to the development of a personal practice across media. Part 2 provides students with the opportunity to identify and investigate particular (individual) interests and concerns through practical engagement in their own studio spaces and to relate their studio work to relevant contemporary issues through the Study Visit abroad, seminars and lecture programmes. Of the 120 credits in Part 2, five are taken up by Career Management Skills. Part 2I provides the opportunity to build on the intellectual and technical skills of the second year through increasingly independent development of work in the studio and through an exploration of the discourse surrounding contemporary art and culture. Part 3H encourages the focused development of an individual body of work in the studio and the location of studio practice in relation to contemporary art and culture.

Summary of teaching and assessment

At Part 1 teaching is by workshops, tutorials, seminars, lectures and visits to museums and galleries. At Parts 2, 2I and 3H teaching is by tutorials, seminars and lectures. Technical assistance and instruction occurs appropriately at the students request. A study trip abroad takes place in Part 2 and directed visits to museums and galleries take place throughout the programme. The Contextualised Personal Study is supervised through tutorials with students' personal tutors and the research seminar co-ordinator.

In Part 1 Compulsory module FA1MP, formative assessment takes place at presentations of work when students receive written/verbal feedback. The Part 1 assessment takes place at the end of the module and is by examination in the form of a display of coursework. Part 1 optional modules are assessed by coursework. In Parts 2 and 2I studio modules there are two types of assessment, an Interim and a Part assessment. Interim Assessments are formative and take place mid-module where a diagnostic mark is achieved. The Part Assessment occurs at the end of the module, the results contributing to the Final Degree classification. At Part 3H assessment is by examination in the form of an exhibition. In all studio modules assessment is by coursework selected and presented by the student. Research Seminar, Contextual Studies and Contextualised Personal Study are assessed by coursework. Full details are given in module descriptions.

The conventions for classification are included in the Programme Handbook but you should note that weighting for Part 2, Part 2I and Part 3H for classification purposes is:-

Part 2 10% (Studio), Part 2I 20% (10% Studio, 10% Research Seminar), Part 3H 70% (60% Studio Exhibition, 10% Contextualised Personal Study).

Support for students and their learning

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Student Access to Independent Learning (S@IL) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, the Careers Advisory Service, the University's Special Needs Advisor, Study Advisors, Hall Wardens and the Students' Union.

In Part 1 a studio space is shared. In Parts 2, 2I and 3H individual studio space is provided for every student. In addition, several bookable spaces are available for installation and time based work. There are sculpture, wood and print workshops, two darkrooms with equipment for black and white processing and there are in-house computer resources. The department is equipped for digital, video and Super 8 film and editing. There are directed visits to museums and galleries and a study trip abroad that takes place in Part 2.

Support for students in their studies is provided through the University's Personal Academic Record (PAR) Scheme, in which students meet their personal tutors regularly to review their progress.

Each student is issued with a Programme Handbook.

Career prospects

In addition to working as artists, graduates in Fine Art have found employment in theatre, television, community services, art therapy, art writing, journalism, publishing, post production, curating, gallery and museum administration, and even popular music.
