# **BSc Investment and Finance in Property** For students entering Part 1 in 2005

Awarding Institution: Teaching Institution: Relevant QAA subject benchmarking group(s): Faculty of Economic and Social Sciences Date of specification: 11<sup>th</sup> May 2005 Programme Director: Alan Rowley Board of Studies: Real Estate and Planning Accreditation: Royal Institution of Chartered Surveyors UCAS code: N380

The University of Reading The University of Reading Building and Surveying Programme length: 3 years

### Summary of programme aims

The BSc programme is a blend of academic rigour and applied practical analysis. It aims to provide students with a sound financial and management education to enable them to develop careers either as Chartered Surveyors or outside the property profession; to enable students to engage confidently in the commercial property and other assets markets; to emphasis the value of inter-disciplinary working; to provide students with a structured but flexible learning framework; and to ensure that the skill areas covered by the programme are applicable to a range of occupational and professional needs.

# **Transferable skills**

The University's Strategy for Teaching and Learning has identified a number of generic transferable skills which all students are expected to have developed by the end of their degree programme. In following this programme, students will have had the opportunity to enhance their skills relating to career management, communication (both written and oral), information handling, numeracy, problem-solving, team working and use of information technology.

The Investment and Finance in Property programme is designed to ensure that students progressively develop these transferable skills throughout their studies, in parallel, and integrated, with acquiring more specialist knowledge, understanding and skills.

## **Programme content**

The Degree is divided into three parts. Part 1 of the programme covers the fundamental principles of the relevant core subjects including economics, law, planning, investment appraisal, management and finance, and building. Part 2 builds on these modules with greater emphasis on their application to the property industry. By the end of Part 2 all students have covered the required core material which is developed and expanded through a package of compulsory modules at Part 3 focussing on investment and finance in property, and totalling 100 credits. In Part 3, students have some flexibility and choice. Students must choose additional modules to make 120 credits in Part 3.

The programme is taught in parallel with the BSc Land Management and students on the Investment and Finance in Property programme may choose to transfer to the more flexible Land Management programme at various stages during their studies.

The following profile lists the modules which must be taken at Parts 1 and 2 of the programme (the compulsory parts), together with the modules normally available in Part 3 of the programme from which a student must make a selection. The number of credits for each module is shown after its title.

Part 1 (three terms)		Credits	Level
Compulsory modu	iles		
RE1DLM	Doing Land Management	20	1
EC104	Economics for Managers	20	1
LW1A05	General Introduction to Law	10	1
LW101F	Introduction to Property Law	10	1
<b>RE1IAP</b>	Investment Appraisal	20	1

RE1MFI	Management & Finance	10	1
RE1PLP	Planning Policy	20	1
RE1UB	Understanding Buildings	10	1

Part 2 (three terms)		Credits	Level
Compulsory mod	ules		
LW210F	Applied Property Law	20	2
RE2BAT	Business Accounting & Taxation	10	2
RE2FMP	Forecasting & Marketing for Property	10	2
<b>RE2IMA</b>	Information Management & Analysis	10	2
RE2PI	Planning Implementation	20	2
EC223	Property & Investment Economics	20	2
RE2PV	Property Valuations	20	2
RE2SPP	Studies in Property & Planning	10	2
Part 3 (three ter	ms)	Credits	Level
Compulsory mod	ules (100 Credits)		
RE3DMU	Decision Making & Uncertainty	10	3
RE3FM	Finance & Markets	20	3
RE3IFI	Investment & Finance Integrated Examination	10	3
RE3IFP	Investment & Finance Projects	20	3
<b>RE3ISM</b>	Investment Strategy & Management	20	3
RE3PDF	Property Development Finance	10	3
<b>RE3PIA</b>	Property Investment Appraisal	10	3

Additional modules (excluding modules taken as part of a package) to make a total of 120 credits at Part 3:

RE3ALV	Agricultural Law & Valuation	20	3
RE3AV	Applied Valuation	10	3
CE2CBP	Building Pathology	10	2
RE3CRE	Corporate Real Estate Strategy	10	3
RE3CC	Countryside Conservation	10	3
RE3DIS	Dissertation	40	3
EC329	Economic of Land Development & Planning	10	3
RE3ES	Environment & Sustainability	10	3
RE3EFB	Estate Finance & Business Management	20	3
RE3EAS	European Agricultural Structures	10	3
RE3FD	Farm Diversification	10	3
LA1XX1	Foreign Language	20	1
RE3FOR	Forestry	10	3
RE3ISP	Independent Study Paper	20	3
EC333	International Real Estate Markets	10	3
RE3IUD	Introduction to Urban Design	10	3
LW321F	Law of Professional Practice	10	3
RE3MRR	Managing Recreation on the Rural Estate	10	3
RE3PHT	Planning & High-Technology	10	3
RE3PT	Planning Theory	10	3
RE3PD	Property Development	10	3
RE3PMP	Property Management in Practice	10	3
RE3PMR	Property Market Research & Analysis	10	3
RE3RPL	Rural Policy & Land Use	20	3
RE3URR	Urban & Regional Regeneration	10	3

## **Progression requirements**

To proceed from Part 1 to Part 2 of the BSc Land Management degree a student must:

- achieve an overall weighted average of at least 40% across all Part 1 modules totalling 120 credits;
- obtain a mark of at least 40% in modules totalling at least 100 credits; and
- achieve a mark of not less than 35% in modules totalling not more than 20 credits.

Marks below 35% in Part 1 modules will not be condoned.

To proceed from Part 2 to Part 3 of the BSc Land Management degree a student must:

- achieve an overall weighted average of at least 40% across all Part 2 modules totalling 120 credits;
- obtain a mark of at least 40% in modules totalling at least 100 credits; and
- achieve a mark of not less than 35% in modules totalling not more than 20 credits.

Marks below 35% in Part 2 modules will not be condoned.

## Summary of teaching and assessment

Teaching is organised in modules that, at both Parts 1 and 2, typically involved lectures and tutorials of up to fifteen students. These tutorial classes encourage students to examine the material covered in the lectures and discuss and debate relevant issues. Parts 1 and 2 comprise foundation studies, preparing students for specialist studies at Part 3, and modules are assessed by a mixture of coursework and formal examination. As the programme becomes more specialised, the nature of the teaching also changes. In Part 3, site visits, case studies, guest lectures and project work all play an important part in the learning process.

A wide variety of assessment methods is used throughout the programme, including unseen written examinations, essays and projects, and videos of group presentations.

Part 2 contributes 33% of the overall assessment of the degree and Part 3 comprises 67%.

To be eligible for the award of an Honours degree, a student must:

- achieve an overall weighted average of 40% across all modules in Part 3;
- obtain a mark of at least 40% in Part 3 modules totalling at least 100 credits; and
- achieve a mark of not less than 35% in Part 3 modules totalling not more than 20 credits.

To be eligible for the award of a Pass degree, a student must:

- achieve an overall weighted average of 40% across all modules in Part 3;
- obtain a mark of at least 40% in Part 3 modules totalling at least 80 credits; and
- achieve a mark of not less than 35% in Part 3 modules totalling not more than 40 credits.

### **Admission requirements**

Entrants to this programme are normally required to have obtained:

Grade C or better in English in GCSE; Grade B or better in Maths in GCSE; and achieved

UCAS Tariff: 320 points from 3 A-Levels *or* 350 points from 3 A-Levels plus one AS level. Subjects and levels: There are no required subjects although Economics, Geography, Business Studies or Mathematics are all relevant.

International Baccalaureate: 34 points Irish Leaving Certificate: AABBB

The above requirements are subject to continual review and are intended as a guide only. Please see our website or contact the Admissions Tutor for up-to date details.

Admissions Tutor: Roger Gibbard

#### PROGRAMME SPECIFICATION: BSc Investment and Finance in Property 11<sup>th</sup> May 2005

## Support for students and their learning

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Student Access to Independent Learning (S@IL) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, the Careers Advisory Service, the University's Disability Office, Study Advisors, Hall Wardens and the Students' Union.

The Department's Resource Centre contains a variety of information sources relevant to Land Management-related programmes. It has a wide-ranging reference collection of textbooks, journals, property company reports and planning documents, which complements the material held in the Main University Library. The Resource Centre also holds the *Barbour Index* microfiche files for *Planning* and *Property Management*, and a link to the on-line *FOCUS* databases provided by Property Intelligence plc. The Department has significant computer facilities for the sole use of its staff and students.

## **Career prospects**

Our students have been regularly employed by the largest and most prestigious firms of surveyors including: Jones Lang LaSalle, DTZ Debenham Thorpe, Weatheralls, Chestertons, Cushman & Wakefield Healey & Baker, Drivers Jonas, King Sturge, Knight Frank, FPDSavills, Insignia Richard Ellis and CB Hillier Parker.

Additionally graduates have found employment with development companies (Slough Estates, Taylor Woodrow, Laing Property, Trafalgar House), management consultants (PricewaterhouseCoopers), insurance companies (Legal & General Investment Management), voluntary sector organisations (Gloucester Rural Community Council) and the private sector (Wolverhampton & Dudley Breweries plc). Traditionally our students have had little difficulty in securing employment and, even during the recession, the vast majority of our graduates had either secured jobs or been accepted for further study within three months of the end of their programme.

# **Opportunities for study abroad**

Due to the need to meet the requirements of professional accreditation, students cannot study abroad, as part of their degree. Students may be permitted to undertake a Socrates or other study visit as part of an approved 'gap' year between Part 2 and Part 3 of the programme.

# Educational aims of the programme

The BSc programme is a blend of academic rigour and applied practical analysis. The programme aims to provide students with the knowledge and skills necessary for successful careers as Chartered Surveyors or related professionals and to engage confidently with market and development processes; to emphasise the value of inter-disciplinary working; to provide students with a structured but flexible learning framework; and to ensure that the skill areas covered by the programme are applicable to a range of occupational and professional needs.

# **Programme Outcomes**

The programme provides opportunities for students to develop and demonstrate knowledge, understanding, skills, qualities and other attributes in the following areas:

# Knowledge and Understanding

-				
A.	Knowledge and understanding of:		Teaching/learning methods and strategies	
1.	The attributes and dimensions of property –		Acquisition of knowledge of fields $1 - 3$ is	
	physical, financial, functional and legal		promoted across the programme through lectures,	
2.	The nature, role and structure of the property-	$\rightarrow$	tutorials, seminars, practicals, workshops, case	
	industry and the key players – planning,		studies, role-play exercises, IT-based exercises,	
	development, law, property markets,		site visits, guest lectures, other project-based	
	occupiers, investors and services		assignments, and through individual consultation	
3.	The environment and the economy – public		with academic staff and personal tutors. Part 1 of	
	policy, environmental policy, economic		the programme focuses on developing students'	
	trends and policy, technological change and		understanding of the general principles the	
	social change		subject areas in field 4 and Part 2 concentrates on	
4.	The concepts and principles of construction,		the application of these subject areas to property	
	economics, finance, valuation, investment,		and land. The choice of package (field 5) at Part	
	management, law and planning and their		3, provides students with a significant element of	
	application to property and related assets		choice enabling them to deepen their	
5.	One of five areas of specialist study:		understanding of land management according to	
0.	<ul> <li>Development and Planning</li> </ul>		their interests and, possibly, career plans. These	
	<ul> <li>Investment &amp; Finance</li> </ul>		packages provide greater opportunities for self-	
	<ul><li>Planning &amp; Development</li></ul>		directed learning through problem-solving and	
			the examination of real world property problems.	
			The teaching and content of the packages also	
	• Urban Property Markets and Valuation		tends to relate to staff research interests and	
			activities. During Part 2 of the programme	
			students are provided with a range of	
			opportunities to consider and evaluate the	
			available packages in Part 3, including sessions	
			given by recent graduates now in practice and	
			current Part 3 students.	
			current Part 5 students.	
			Assessment	
			Assessment in Part 1 is based on elements of	
			coursework, class tests and unseen formal	
			examinations. Modules at Part 2 are assessed in a	
			similar way. The balance of assessment methods	
			varies somewhat at Part 3 depending on the	
			choice of specialist package. The full range of	
			assessment methods are used including essays,	
			unseen examination papers, open book	
			examinations, multiple-choice examination	
			papers, group projects, specialist exercises (IT-	
			based, design-based, marketing-oriented),	
			presentations, tutorial & seminar papers, and	
			reports.

	tutorial & seminar papers, and reports		

#### C. Practical skills – able to:

- 1. Locate information sources and select, assemble and present information in a variety of contexts
- 2. Collect, record, analyse and present statistical material
- 3. Value a range of property and propertyrelated assets using a variety of appraisal approaches and techniques, including the application of financial mathematics
- 4. Use forecasting techniques
- 5. Read and interpret standard company accounts
- 6. Write a 'plain-English' report
- 7. Write an effective CV

## Teaching/learning methods and strategies

In Part 1, the aim of the *Doing Land Management* module is to develop, in stages, a range of fundamental skills to help students make the transition from school, to university and on to work: these include skills 1, 2, and preparatory work on 7. This module is supported by a mixture of short lecture series and tutorials, workshops and/or practicals. Similarly, modules including Investment Appraisal (Part 1), Applied Valuation (Part 2), and other package-specific modules in Part 3, address skill 3. In Part 2, Information Management & Analysis and Studies in Property & Planning apply and extends into more specialised context the skills developed in *Doing* Land Management at Part 1 and in other modules. Business Accounting & Taxation and Forecasting & Marketing for Property (Part 2) address skills 4 and 5 through lectures, tutorials and seminars. Many modules, for example, Doing Land Management (Part 1) and both Planning Implementation and Forecasting & Marketing for Property (Part 2) guide students to write in plain-English – skill 6. In Part 3, projects and other coursework emphasise skills 1-6 subject to the student's choice of specialist package. All students complete a short CAS/CMS course on Effective (job) Applications

#### Assessment

Skills 1-7 are primarily assessed through coursework, in the form of essays and/or practical projects. Skills 3 and 5 are also assessed through unseen written examinations

#### PROGRAMME SPECIFICATION: BSc Investment and Finance in Property 11<sup>th</sup> May 2005

**D.** Transferable skills Teaching/learning methods and strategies 1. Communicate effectively by oral and written The teaching and acquisition of these transferable means (also graphically subject to choice of skills is firmly embedded in the programme. For option modules) example, both written and oral communication is 2. stressed in most modules and is a feature of all. Numerical skills including data collection and interpretation Doing Land Management (Part 1), Information Problem solving skills 3. Management & Analysis (Part 2) and package-Time / task management and team working specific *Project* modules in Part 3 particularly 4. skills stress the acquisition and personal development 5. Competent use of information technology of a wide range of transferable skills. A business and career-oriented culture permeates the including some specialist software packages Business awareness programme fed by, inter alia, module content and 6. Information handling the intended learning outcomes, staff (and 7. Autonomous learning – be able to undertake 8. student) links with practice, lectures by visiting self-directed study practitioners, site visits, the analysis of market 9. activity and events, and near-market projects, Career management skills notably in Part 3. The programme's strategy on career management incorporates the use of the University Careers Advisory Service's Effective (job) Applications package incorporating a taught session, on-line learning material and assignments, timetabled to prepare students for the usual cycle of career presentations,

#### Assessment

applications and interviews.

As a result of this 'pervasive' approach to transferable skills, students' performance is assessed across the full range of skills throughout the programme on a module-by-module basis through coursework including practical projects when feedback is provided. Skills 1, 6 and 8 are also assessed in Part 3 through examinations.

*Please note:* This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably expect to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in module and programme handbooks.
