#### Summary of programme aims and learning outcomes

The programme aims to provide a degree-level education in International Management and Business Administration, with a significant emphasis on Italian culture and a high level of understanding of written and spoken Italian. This programme is distinctive in its international business and culture aspects. At the same time it provides a good understanding of a range of key functional aspects of business which give students some exemptions from initial examinations by a number of professional bodies.

#### **Transferable skills**

The University's Strategy for Teaching and Learning has identified a number of generic transferable skills which all students are expected to have developed by the end of their degree programme. In following this programme, students will have had the opportunity to enhance their skills relating to career management, communications (both written and oral), information handling, numeracy, problem-solving, team working and use of information technology.

#### **Programme content**

The following profile lists the compulsory modules, together with their credit size, for each Part. Students are required to take a total of 120 credits in each Part. Where the compulsory modules in a Part total less than 120 credits, students are required to select options containing sufficient credits to make up the shortfall. Any such options selected must be drawn from the options listed below for Parts 2 and 3; in Part 1 they can be drawn from anywhere in the University subject to any restriction which may be applied to particular module choices.

## **Progression requirements**

To progress to Part 2 a student must:

(i) obtain an average mark of 40% across all Part 1 modules;

(ii) obtain at least 40% in Introductory Management, Quantitative Techniques and the total 40 credits of Italian modules;

(i) not have any mark of less than 30% in any module except that marks of less than 30% in a total of 20 credits may be condoned, provided that the candidate has pursued the course for the module(s) with reasonable diligence and has not been absent from the examination without reasonable cause.

(iii)

To progress from Part 2 to Part 3 (and, where appropriate, from Part 3 to Part 4 in four year programmes spent in the University) a student must:

(ii) obtain an average mark of 40% across all modules in that Part;

(iii) obtain at least 40% in any module required for progression to the next Part of the degree programme for which he or she is registered (this includes either Advanced Italian Language II or Intermediate Italian Language);

(iv) not have any mark of less than 30% in any module except that marks of less than 30% in a total of 20 credits may be condoned, provided that the candidate has pursued the course for the module(s) with reasonable diligence and has not been absent from the examination without reasonable cause.

To proceed from the Year Abroad to Part 3 students must satisfy the examiners that they have successfully completed an approved programme of studies at a University in Italy and have handed in the work and assignments required by the programme.

#### Summary of teaching and assessment

**1.** Teaching is organised in modules. The delivery of material varies among modules, especially in the proportions of time allocated to lectures, and to classes and seminars. All modules involve coursework, which takes a variety of forms. Final assessment normally involves a written examination, and may also incorporate coursework marks;

**2.** The maximum proportion of a final module mark allocated to coursework is 20%, other than in special cases. (See 5. below concerning Italian modules.)

**3.** In the Department of Italian, teaching is through seminars, lectures, essay tutorials and language classes. Over the programme as a whole, assessment will be conducted through a mixture of assessed essays and formal examination. The Credits from Italian University courses will derive from marks obtained in oral examinations set by the Italian university. The Oral in Italian and the Written and Oral Presentation will be examined at the beginning of Part 3.

**4**. The conventions for classification are included in the Programme Handbook but you should note that weighting between Part 2 (and I level modules in the Year Abroad) and Part 3 (and H Level modules in the Year Abroad) for classification purposes is 33% and 67%.

**5.** Italian modules vary from the standard and coursework may amount to up to a maximum of 50%.

## **Admission requirements**

Entrants to this programme are normally required to have obtained:

Grade C or better in English in GCSE; and achieved:

UCAS Tariff: 300 points from 3 A levels or 340 points from 3 A levels plus one AS level. A minimum of two full A levels are required (including Latin or a modern language GCSE) International Baccalaureate: 32 points

Irish Leaving Certificate: ABBBB (including Latin or modern foreign language)

Admissions Tutor: Dr. James Walker

#### Support for students and their learning

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Student Access to Independent Learning (S@IL) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, the Careers Advisory Service, the University's Special Needs Advisor, Study Advisors, Hall Wardens and the Students' Union. Support for students in their studies is provided through the University's Personal Academic Record (PAR) scheme, in which students meet their personal tutors regularly to review their progress.

The School Handbooks issued to Part 1 and to degree course students provide extensive information on resources and study skills. The Access Point for Individual Language Learning (APILL) contains a range of audio and audio-visual materials to promote self-study in languages, together with facilities for watching Italian television by satellite. The University Library is particularly well stocked with works relating to many different aspects of Italian and Classical culture and the Faculty possesses a video suite to support cinema studies. The School Libraries contains a range of reference works which can be used by students and offer congenial study spaces. The School of Management has a resource room with reference books and computers for student use.

#### **Career prospects**

In recent years students who have followed this programme have gone into jobs in the banking, finance, accounting and associated industries. These include large international management and marketing consultancies, international retailers and fashion houses, research in top rated universities in the USA, Italy and the UK, and professional positions in other service industries.

Graduates on this programme may apply for exemptions from relevant professional examinations of the Chartered Institute of Marketing, the Chartered Institute of Management Accountants and the Institute of Chartered Accountants. Students on this programme may become student members of the Institute of Management.

## **Opportunities for study abroad or for placements**

Study Abroad.

Students go to one of our partner universities in Italy. They must take the units and examination in these institutions as agreed by the Director of Management Studies and the Italian Departmental Coordinator. The assessment of student achievement in examination and coursework in the partner universities, whether by written or oral examination, is taken into account as two classifying finals units (including an oral assessment).

All students also complete a dissertation.

Work Placement

Students may choose to seek a placement in a company in Italy for the year abroad. If they are successful in finding a suitable placement which is authorised by the Director of Management Studies, students must work for a minimum of seven months full time. Assessment is based on a work placement report ( about 4,000 words), a report by the employer, and an oral examination conducted jointly by the Management and Italian departments. Further details are available from the Director of Management Studies.

## Educational aims of the programme

The programme aims to:

(i) Provide students with basic knowledge and skills needed to embark on a management career.

(ii) Develop the student's competence in applying management and business techniques and skills to business practice.

(iii) Develop reasoning and analytical skills.

(iv) Develop a range of personal transferable skills.

(v) Develop students' knowledge of the Italian language, especially of the language used in business communication

(vi) Provide students with a good knowledge of the Italian language, of some chosen Italian cultural, historical and social topics.
