Summary of programme aims

The History element of the syllabus aims to familiarise students with a broad chronological and regional range in the history of the modern period, whilst providing them with the opportunity of specialisation in particular periods and topics of British, European and American history. It also enables students to pursue their own interests through independent study and a substantial dissertation. Using a variety of approaches to the study of history, students will develop the ability to analyse change over time, to understand the nature of causal relationships, and to handle comparative, cross-cultural and abstract concepts. Additionally, students will refine the following subject-based skills: the collection and synthesis of large quantities of information; the critical evaluation of primary and secondary sources; the making of well-crafted and substantial judgements, and engagement in debate on historical issues.

In Politics, the programme aims to give students an appreciation of the normative, methodological and institutional issues involved in the study of politics in relation to one of the three main subfields of the discipline: political philosophy, comparative government and international relations. Students focus on compulsory modules in international relations and associated optional modules.

The programme provides a supportive learning environment with full access to welfare, pastoral and careers support.

Transferable skills

The University's Strategy for Teaching and Learning has identified a number of generic transferable skills which all students are expected to have developed by the end of their degree programme. In following this programme, students will have had the opportunity to enhance their skills relating to career management, communication (both written and oral), information handling, numeracy, problem-solving, team working and use of information technology.

History and Politics are disciplines that lend themselves to critical judgement and problem-solving, both through personal engagement with issues and through dialogue and group discussion. Students are encouraged to defend and to challenge established positions through the collection, collation and analysis of substantial quantities of material, the rigour of argument, and effective communication and presentation. The disciplines also prompt an awareness of numeracy through chronology, periodisation, and basic quantification. The programme develops students' familiarity with information technology in the production and presentation of their work and develops their skills in using computers for the location and retrieval of bibliographic and source material, accessing sophisticated databases and exploiting the internet.

Programme content

Each Part comprises 120 credits. In Part 1 the remaining credits can be made up from any optional modules and/or from modules elsewhere in the University. In Part 2 students must normally take 60

credits in both subjects, and in Part 3 students take 40 credits in each subject plus a dissertation, in one subject or the other, of 40 credits.

Not all optional modules will necessarily be available in any year. Admission to optional modules will be at the discretion of the Programme Director.

Part 1 (three terms)

Progression requirements

- (a) To proceed from Part 1 to Part 2 students should achieve an overall average of 40% in 120 credits taken in the examination, and at least 40% in 20 credits of History and in 40 credits of Politics. *Nb, candidates who only take 20 credits in History may progress to a joint History degree so long as they achieve 40% in their History module.*
- (b) To proceed from Part 2 to Part 3 students should achieve an overall average of 40% in 120 credits taken in the examination.
- (c) In both cases they should achieve not less than 30% in any module except that marks of less than 30% in a total of 20 credits may be condoned, provided that the candidate has pursued the course for the module(s) with reasonable diligence and has not been absent from the examination without reasonable cause.

Summary of teaching and assessment

In History, at Part 1, teaching is by lectures and seminars. At Parts 2 and 3, it is principally by seminars. The Part 3 Dissertation is supervised in a series of tutorials with an individual supervisor. Part 1 modules are assessed by examinations while modules in Parts 2 and 3 are assessed by a mixture of coursework and timed examination. The Part 2 Skills modules are assessed through portfolios of skills while the Dissertation is assessed both as coursework and through oral presentation.

In Politics, Part 1 modules and the compulsory Part 2 modules involve both lectures and seminars. Part 2 and Three optional modules typically place greater emphasis on seminars. All modules other than the Study of Politics and Dissertation are assessed by a mixture of coursework (25%) and examination (75%).

The conventions for classification are included in the Programme Handbook but you should note that weighting between Part 2 and Part 3 for classification purposes is 33% and 67%.

Admission requirements

300 points from three A levels only. History at Grade B. Total points exclude Key Skills and General Studies.

International Baccalaureate: 32 points, with History at grade 6 or Advanced GNVQ: 18 units at Distinction overall; or Scottish and Irish Highers: 5 Bs or equivalent thereof.

Those with non-standard qualifications will be considered on an individual basis. Admissions secretary: Mrs Elizabeth Berry, <u>e.l.berry@reading.ac.uk</u>, tel 0118 378 8148

All applicants are considered on their individual merits and the School/Department may vary these requirements if it sees fit.

Mature applicants. Applications from mature candidates are welcomed. A mature applicant is more likely to receive an offer of a place if he or she has undertaken recent study, for example two or more A levels or an Access course, but each case is assessed on its individual merits. We recommend that you contact an admissions tutor as soon as possible to discuss your individual circumstances.

International applicants. Applications from international candidates are welcomed. If you are not offering A levels we advise you to contact either the EU or the international admissions tutor before

applying in order to discuss the acceptability of your qualifications. IELTS Band 7 (or equivalent) will be required for those whose education has not been undertaken in English.

Support for students and their learning

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Student Access to Independent Learning (S@IL) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by the Careers Advisory Service, the University's Special Needs Advisor, Study Advisors, Hall Wardens and the Students' Union. Support for students in their studies is provided through the University's Personal Academic Record (PAR) Scheme, in which students meet their personal tutors regularly to review their progress.

In the School of History, students are provided with handbooks which outline the programme, provide guidance on study skills, and contain information on staff, facilities and sources of specialised help within the University. They are also available on the internet:

http://www.reading.ac.uk:80/AcaDepts/lh/History/history.htm. Additional support is given through orientation sessions on module choices and the Dissertation. Advice is also given the BA Programme Coordinator. There is full written feedback on essay work. Each module teacher gives personal guidance and feedback and sends termly reports on progress to personal Tutors for discussion with students. There is also a School Resource room which provides quiet study space, a photocopier and networked computers.

In Politics, students are provided with Departmental Handbooks which outline the programme, provide guidance on study skills, and contain information on staff, facilities and specialised sources of help within the University. Additional support is given in the Study of Politics module in Part 2. There is also written feedback on essay work. There is also a departmental Library, and a photocopier.

Liaison officers for both History and Politics coordinate the programme.

Career prospects

Over the years students who have followed this programme have gone into jobs in both the public and private sectors. In the public sector, jobs include academic and academic related jobs (e.g. lectureships, administrative posts on research boards), the civil service, local government, public corporations, hospital management, and in the social services, such as, child care, youth employment, probation, and so on. In the private sector, recent jobs include working for advertising, journalism, radio and television, computer firms and large finance and insurance companies.

Opportunities for study abroad or for placements

Students have the opportunity to spend a period of study abroad (normally in Part 2) as part of the Socrates scheme, or in conjunction with the American Studies programme's exchange.

Educational aims of the programme

The programme aims to provide a solid framework for exploring the broad sweep of modern history and the complex interplay between cause and effect in the historical process. The History component develops the student's knowledge of events, structures, and historical agents or actors and a critical awareness of the variety of ways in which the past has been interpreted in historical writing. The Politics component aims to provide a thorough degree level education in Politics and International Relations. It aims to produce graduates who have experience of the main sub-fields of the discipline and have acquired appropriate study skills.

Please note - This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the module description and in the programme handbook. The University reserves the right to modify this specification in unforeseen circumstances, or where the process of academic development and feedback from students, quality assurance processes or external sources, such as professional bodies, requires a change to be made. In such circumstances, a revised specification will be issued.
