

## **Post-experience Certificate in Education Health & Social Care For students entering in 2008**

Awarding Institution:	The University of Reading
Teaching Institution:	The University of Reading Faculty of Social Sciences
Programme length:	1 year part time
Date of specification:	October 2008
Programme Directors/Advisors:	Anne Smith and Alison Cocks
Board of Studies:	Board of Studies for Modular Masters programmes in the School of Health and Social Care
Accreditation:	N/A

### **Summary of programme aims**

The programme is multi-professional in nature bringing together professionals from nursing, medicine, allied health professions and social work. The programme is designed to equip students with evaluative skills to understand, inform and influence teaching across the health and social care environment and is designed to support the concept of professional development and lifelong learning.

### **Transferable skills**

Use of evaluation when addressing complex educational issues in order to:  
Problem solve  
Introduce innovation and change  
Promote inter professional collaboration  
Evaluate and manage knowledge in order to engage in best teaching practise

### **Programme content**

HC3J03	Teaching practice	20	H
HC3J02	Methods/styles of teaching and learning	20	H
HC3J01	Adult learning	20	H

### **Summary of teaching and assessment**

Teaching throughout the programme is student centred and students contribute with a diversity of life and professional experience that is valued and utilised to facilitate new learning. Teaching styles will normally be interactive drawing on discussion and reflection as key methods of delivery. All of the assessed work will be related to the students' practice as an educator in the Health and Social Care field thus supporting the integration of theory and practice throughout.

## **Admission requirements**

Entrants to this programme are normally required to have obtained a diploma or to produce evidence of their ability to study at H level. They will be expected to hold a professional qualification with a minimum of two years full time practice experience.

They must be working in an environment that will allow them to undertake the practice element of the programme [i.e. where teaching is a major component of their role]

Admissions Tutor: Anne Smith (Health) and Alison Cocks (Social Care)

## **Support for students and their learning**

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Student Access to Independent Learning (S@IL) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, the Careers Advisory Service, the University's Special Needs Advisor, Study Advisors, Hall Wardens and the Students' Union.

## **Career prospects**

The majority of students registering on this programme will be employed by the health and social care providers or by Higher education institutions. This course will enhance their potential for career development and promotion within the field of teaching across their professional discipline

## **Opportunities for study abroad or for placements**

Not applicable as students are seconded from their employing authority. Where they have support of employers and the experience would be considered relevant requests for short, elective periods of overseas practice could be considered.

## **Educational aims of the programme**

This programme aims to develop informed, effective practice educators/lecturers across the health and social care settings

**Please note - This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the module description and in the programme handbook. The University reserves the right to modify this specification in unforeseen circumstances, or where the process of academic development and feedback from students, quality assurance processes or external sources, such as professional bodies, requires a change to be made. In such circumstances, a revised specification will be issued.**
