Summary of programme aims

The programme aims to provide a thorough degree level education in Classics. The syllabus aims to familiarise students with the ancient languages of Greek and Latin, as well as the literature, art, philosophy and history of Greek and Roman cultures and their reception and use in modern culture, whilst providing them with the opportunity to study more thematic topics in depth. The programme also provides for the development of the specific interests of students through independent study and specifically the dissertation. Students will expand the range, depth and sophistication of their knowledge of Classics through the structured progression of Parts 1, 2, and 3 of the programme.

Transferable skills

During the course of their studies at Reading, all students will be expected to enhance their academic and personal transferable skills in line with the University's Strategy for Learning and Teaching. In following this programme, students will have had the opportunity to develop such skills, in particular relating to communication, interpersonal skills, learning skills, numeracy, self-management, use of IT and problem-solving and will have been encouraged to further develop and enhance the full set of skills through a variety of opportunities available outside their curriculum.

Programme content

Part 1 develops the student's knowledge of Latin and Greek with the option of the study of Greek and Roman culture, with a particular emphasis upon the development of the study of primary sources and source criticism, alongside the development of writing skills to explore specific topics in Greek and Roman Civilisations. Students are encouraged to take an additional 20 credits in Greek Myths. Part 2 develops the student's knowledge of Latin and Greek language and literature and develops an awareness of the role of the classics in the shaping of the modern Western culture via compulsory core modules. In addition, students choose four option modules that are either more thematic or add greater depth than the core modules. In Part 3, students continue with compulsory language modules, and there is an increasing specialisation and progression to approach topics in greater depth through the provision of optional modules and the opportunity to research a dissertation topic in depth.

Not all options will necessarily be available every year. Admission to options will be at the discretion of the Programme Director.

In Parts 2 and 3, up to 20 credits can be taken from modules available elsewhere in the University.

Support for students and their learning

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers, and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Student Access to Independent Learning (S@il) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and the Student Services Directorate. The Student Services Directorate is housed in the Carrington

Building and includes the Careers Advisory Service, the Disability Advisory Service, Accommodation Advisory Team, Student Financial Support, Counselling and Study Advisors. Student Services has a Helpdesk available for enquiries made in person or online (www.risisweb.reading.ac.uk), or by calling the central enquiry number on (0118) 378 5555. Students can get key information and guidance from the team of Helpdesk Advisers, or make an appointment with a specialist adviser; Student Services also offer drop-in sessions on everything from accommodation to finance. The Carrington Building is open between 8:30 and 17:30 Monday to Thursday (17:00 Friday and during vacation periods). Further information can be found in the Student website (www.reading.ac.uk/student).

The Department of Classics is the Curator of the Ure Museum of Greek Archaeology.

Career prospects

Graduates in Classics have found that their degree course has been a good basis for careers in management, administration, the civil service, commerce, law, publishing, librarianship and teaching. Graduates have also gone on to postgraduate courses within the field of the Classics at Reading and elsewhere.

Opportunities for study abroad or for placements

In Year 2, two students can study for the Fall Semester at the University of Calgary's Department of Greek and Roman Studies. Applications to take part in the exchange need to be made in the Spring term of Year 1. The Department also has an ERASMUS link with the University of Crete. Students are also encouraged to apply to the British School in Athens, where they may take a module for credit, and the British School in Rome.

Programme Outcomes

The programme provides opportunities for students to develop and demonstrate knowledge and understanding, skills, qualities and other attributes in the following areas:

Knowledge and Understanding

A. Knowledge and understanding of:

1. Latin and Greek languages
2. the literature, thought, art and religion of antiquity,
3. a diverse range of primary materials.
4. a range of problems of interpretation and evaluation of primary materials,

Teaching/learning methods and strategies

Knowledge and understanding are gained through formal teaching (lectures, language classes, seminars, and individual essay feedback), recommended reading, and the writing of essays and a dissertation.

Assessment

Most knowledge is tested through a combination of coursework and formal examination. The Dissertation and oral presentations also contribute.

Skills and other attributes

B. Intellectual skills - able to:

engage in analytical and evaluative thinking about texts, sources, arguments and interpretations, independently estimating their relevance to the issue in question, discriminating between opposing theories, and forming judgements on the basis of evidence and argument.

Teaching/learning methods and strategies

Skills will be introduced in lectures, developed through reading, writing of essays, dissertation and examination

Assessment

Coursework and examinations, as well as in the dissertation

C. Practical skills - able to:

1. gather, organise and deploy evidence and information, and to show awareness of the consequences of the unavailability of evidence,
2. develop the capacity for critical judgement in the light of evidence and argument,

Teaching/learning methods and strategies

These are developed through the deployment of seminar classes and essay assignments. Oral presentation also constitutes a percentage of the assessment of the dissertation

3. select and apply appropriate methodologies in assessing the meaning and significance of evidence or data,
4. have effective bibliographical and library research skills.

Assessment
Coursework and examinations, as well as in the dissertation

D. Transferable skills - *able to*:

Teaching/learning methods and strategies

Please note - This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the module description and in the programme handbook. The University reserves the right to modify this specification in unforeseen circumstances, or where the process of academic development and feedback from students, quality assurance process or external sources, such as professional bodies, requires a change to be made. In such circumstances, a revised specification will be issued.
