Summary of programme aims

This is a multi-disciplinary programme which aims to provide students with subject specific knowledge and more general skills, including knowledge of a variety of different kinds of literary and historical texts, from a range of different periods, as well as perspectives on different methods of critical and interpretative analysis. The programme also aims to foster an independent approach to formulating problems and arguments, using the close reading, analytical skills and knowledge base that are fundamental to the disciplines of English and History.

Transferable skills

During the course of their studies at Reading, all students will be expected to enhance their academic and personal transferable skills in line with the University's Strategy for Learning and Teaching. In following this programme, students will have had the opportunity to develop such skills, in particular relating to communication, interpersonal skills, learning skills, numeracy, self-management, use of IT and problem-solving and will have been encouraged to further develop and enhance the full set of skills through a variety of opportunities available outside their curriculum.

History is a discipline which lends itself to critical judgement and problem-solving, both through personal engagement with issues and through dialogue and group discussion. Also integral is the collection, collation and analysis of substantial quantities of material and its communication and presentation. History also prompts an awareness of numeracy through chronology, periodisation, and basic quantification. In addition, the development of powerful tools of research, analysis and presentation associated with information technology is reflected in several ways, such as in the location and retrieval of bibliographic and source material, the production and presentation of student work, and, where appropriate, the use of more sophisticated databases and exploitation of the internet.

In English: On completion of this programme, students are expected to have developed a range of transferable skills including: fluency in writing and oral communication, the ability to formulate and evaluate their own arguments and those of others, to translate subject-specific knowledge and skills to new environments, the ability to find and use relevant information resources, to manage their time effectively, and use basic word-processing and IT skills; the ability to work cooperatively with others.

Programme content

Each Part comprises 120 credits. In Part 1 students must take 60 credits worth of modules in the School of English and 40 credits of modules in History; the remaining credits can be made up from an optional module in History and/or from modules elsewhere in the University. In Parts 2 and 3 students must normally take a minimum of 60 credits in both Schools in each Part.

Part 1 introduces students to the disciplines through study of historical causation, contextualisation and the utilisation of both primary and secondary sources in History and, in English, through textual analysis, criticism, and genre. In Part 2 students are required to engage with a broad span of historical and literary topics which develop both their range of knowledge and their analytical/critical skills. Part 3 involves the study in depth of Topics or a Special Subject which require that students apply their analytical skills in focussed areas and undertake independent research, especially in the Dissertation.

Not all Optional modules will necessarily be available in any year. Admission to optional modules will be at the discretion of the Programme Director.

Support for students and their learning

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers, and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Student Access to Independent Learning (S@il) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and the Student Services Directorate. The Student Services Directorate is housed in the Carrington Building and includes the Careers Advisory Service, the Disability Advisory Service, Accommodation Advisory Team, Student Financial Support, Counselling and Study Advisors. Student Services has a Helpdesk available for enquiries made in person or online (www.risisweb.reading.ac.uk), or by calling the central enquiry number on (0118) 378 5555. Students can get key information and guidance from the team of Helpdesk Advisers, or make an appointment with a specialist adviser; Student Services also offer drop-in sessions on everything from accommodation to finance. The Carrington Building is open between 8:30 and 17:30 Monday to Thursday (17:00 Friday and during vacation periods). Further information can be found in the Student website (www.reading.ac.uk/student).

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers, and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Learning Resource Centre with some 200 workstations. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by the Careers Advisory Service, the University's Special Needs Advisor, Study Advisors, Hall Wardens and the Students' Union. Support for students in their studies is provided through the University's Personal Academic Record (PAR) Scheme, in which students meet their personal tutors regularly to review their progress.

In the School of History, students are provided with handbooks which outline the programme, provide guidance on study skills, and contain information on staff, facilities and sources of specialised help within the University. They are also available on the internet at <http://www.reading.ac.uk:80/AcaDepts/lh/History/history.htm>. Additional support is given through orientation sessions on module choices and the Dissertation. Advice is also given by the Programme Director. There is full written feedback on essay work. Each module teacher gives personal guidance and feedback and sends termly reports on progress to Personal Tutors for discussion with students. There is also a School Library which provides quiet study space, a photocopier and networked computers.

Students in English receive Handbooks which give details of the programme, guidance on study skills such as note-taking and essay writing, and information about staff, facilities, and sources of specialized help within the University, such as the Study Skills Advisor and the Counselling Service. The English programme is designed to give students extensive teaching support in Part 1 leading to more independent work in Part 3. Academic feedback and guidance is given through one-to-one essay tutorials, and academic and personal support is provided through the personal tutor system and PAR. Dissertation workshops prepare students for the Part 3 dissertation which is individually supervised. The Geoffrey Matthews Collection, housed in the School of English, provides books, xeroxed materials, cassettes and an extensive collection of videos for loan to students. A video-viewing suite is available within the Faculty. The Library is well-stocked with printed materials as well as electronic databases, such as the OED, the MLA Bibliography, and the DNB on CD ROM, and such on-line

resources as JSTOR, and First Search. Specialist subject librarians are available to give students advice and guidance to library resources.

Liaison Officers for both History and English coordinate the programme.

Career prospects

History and English graduates are trained in clear thinking, research skills, diligence, independence, adaptability and the ability to understand people and situations in the world at large. Past graduates have used their degree as a springboard for various areas of employment such as accountancy, banking and commerce, law, publishing, journalism, the media, public relations, information science, museum work, teaching and social work. Many also enter the business world through management training schemes operated by national companies in retailing, marketing, sales, computing, while others go into the civil service and local government. Graduates go on to postgraduate study in both at MA and PhD level, at Reading and elsewhere.

Opportunities for study abroad or for placements

Students may, with permission, opt for a four-year degree programme which involves spending their third year abroad, at one of the European universities with which Reading has an exchange agreement. They would actively participate in academic courses abroad, experience the teaching and learning processes of another institution, learn or improve their knowledge of a European language, and enhance their curriculum vitae. Students opting for the 4-year degree take 120 credits in Year 3. Of this total, 40 credits of English studies (two courses undertaken at the host institution) and 40 credits of History studies (two courses undertaken at the host institution) will count towards degree classification. The remaining 40 credits are assigned for the experience and satisfactory completion of the year abroad, and are assessed on a Pass/Fail basis.
