MSc Economic Development in Emerging Markets For students entering in 2009

Awarding Institution: The University of Reading Teaching Institution: The University of Reading

Henley Business School

Programme length: 12 months

Date of specification: September 2009

Programme Director: Dr Yelena Kalyuzhnova
Board of Studies: MA/MSc Economics

Accreditation: N/A

Summary of programme aims

The programme aims to provide a thorough postgraduate education in the specialist area of economic development in emerging markets. The compulsory modules provide a critical understanding of current theories and empirical research in the field and students will develop a practical understanding of the application of this knowledge within an institutional framework. They will learn to evaluate alternative theories and methodologies and to make judgements on their applicability to complex issues where there is incomplete information.

Transferable skills

The programme requires a substantial amount of independent reading, research and study and students are expected to take personal responsibility and show initiative in developing their knowledge and understanding of the field of study. They will also need to enhance their communication skills (both written and oral), information handling, numeracy, problem-solving, and the use of information technology. Students will work under pressure of time throughout the programme and will learn to set priorities and manage their time in order to meet strict deadlines. Career planning will be an integral part of the programme, both in the choice of programme and in its elective components.

Programme content

Students register for a 12 month programme comprising taught modules and either a dissertation or an applied research project.

		Credits	Level
Mod Code	Module Title		
	Compulsory Modules		
ECM13	Fundamental Economic Methods		7
ECM52	Interdisciplinary Seminar on Recent Developments in	10	7
	Euro-Asia		
ECM73	Economic Development in Emerging Markets	20	7
ECM74	Emerging Economies and Policy	20	7
ECM61	New Issues in Globalisation	10	7
ECM85	Research Methodology	10	7

ECM86	Quantitative Research Methods	10	7
	Either ECM96 or ECM97:		
ECM97	Dissertation*	40	7
ECM96	Applied Research Project	20	7
	Optional Modules		
	60 credits of modules selected from the elective list if		

60 credits of modules selected from the elective list if taking the dissertation, or 80 credits if taking the applied research project, with the exception of modules ECM77, ECM78, ECM08, ECM09, ECM22, ECM23

*To be eligible to take the dissertation, students must do at least 100 credits of taught modules in the Autumn term, and achieve an average coursework mark of at least 60% in each module in that term. They must also try to obtain the agreement of a member of faculty willing to act as supervisor, though one will be appointed if necessary.

Part-time/Modular arrangements

The programme may be studied part-time over two consecutive years by arrangement with the Director of Postgraduate Studies in Economics. The dissertation will be presented by 5.00 p.m. on the first Friday in September at the end of the second year of study.

Progression requirements

Students wishing to proceed to a higher degree by research should normally have followed the 12 month programme and obtained an average of at least 60% in the modules and at least 60% in the dissertation.

Summary of teaching and assessment

Teaching is organised in modules. The delivery of material varies among the modules, especially in the proportion of time allocated to lectures, classes and seminars. All modules involve coursework, which takes a variety of forms reflecting the aims of the module. Final assessment of the modules involves a 2 hour examination and coursework.

The University's taught postgraduate marks classification is as follows:

MarkInterpretation70-100%Distinction60-69%Merit

50-59% Good Standard (Pass)

Failing categories

40-49% Work below threshold standard

0-39% Unsatisfactory Work

For Masters Degrees

To pass the MSc students must gain an average mark of 50 or more overall including a mark of 50 or more for the dissertation (if applicable) and have no module mark

below 40. In addition the total credit value of all modules marked below 50 must not exceed 55 credits.

Students who gain an average mark of 70 or more overall, including a mark of 60 or more for the dissertation (if applicable) and have no mark below 40 will be eligible for a Distinction. Those gaining an average mark of 60 or more overall, including a mark of 50 or more for the dissertation (if applicable) and have no mark below 40 will be eligible for a Merit.

Those who do not pass the MSc may be eligible for a Postgraduate Diploma or Certificate.

For Postgraduate Diplomas

To pass the Postgraduate Diploma students must gain an average mark of 50 or more over 120 credits. In addition, among these 120 credits, the total credit value of all modules marked below 40 must not exceed 30 credits and for all modules marked below 50 must not exceed 55 credits.

Students who, over 120 credits, gain an average mark of 70 or more and have no mark below 40 will be eligible for the award of a Distinction. Students who, over 120 credits, gain an average mark of 60 or more and have no mark below 40 will be eligible for a Merit.

For Postgraduate Certificates

To pass the Postgraduate Certificate students must gain an average mark of 50 or more over 60 credits. In addition, among these 60 credits, the total credit value of all modules marked below 40 must not exceed 10 credits.

Admission requirements

- (a) Entrants to this programme are normally required to have obtained an upper second class honours degree or equivalent. The additional requirements for the programme can be obtained from the pre-requisites of the core modules of the programme, namely a good understanding of core microeconomics and macroeconomics at an undergraduate level.
- (b) Admissions Tutor: Dr Yelena Kalyuzhnova

Support for students and their learning

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Student Access to Independent Learning (S@IL) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme.

Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and the Student Services Centre. The Student Services Centre is housed in the Carrington Building and includes the

Careers Advisory Service, the Disability Advisory Service, Accommodation Advisory Team, Student Financial Support, Counselling and Study Advisors. Student Services has a Helpdesk available for enquiries made in person or online (www.risisweb.reading.ac.uk), or by calling the central enquiry number on (0118) 378 5555. Students can get key information and guidance from the team of Helpdesk Advisers, or make an appointment with a specialist adviser; Student Services also offer drop-in sessions on everything from accommodation to finance. The Carrington Building is open between 8:30 and 17:30 Monday to Thursday (17:00 Friday and during vacation periods). Further information can be found in the Student Diary (given to students at enrolment) or on the Student website (www.reading.ac.uk/student).

The Programme Director acts as personal tutor to the student and also interviews every student before the beginning of term to offer advice on the operation of the degree programme and on the choice of options. Many of the students are from countries outside the UK and the tutors are therefore careful to ensure that students settle down in their new surroundings and understand the requirements of the MSc programme. All autumn term modules set a test at the end of the term with the primary purpose of familiarising students with the UK examination system and the requirements of the programme. Students who fail overall on their modules are identified and invited to discuss their problems with their tutor. In addition to lecture and class times, each module lecturer has appointed office hours during which they may be consulted without prior appointment. The Centre for Euro-Asian Studies also provides a Handbook with details of each module and a Handbook covering the MSc programmes as a whole, including details of the method of assessment of programmes.

Career Prospects

Most students come from outside the UK and return to employment in their home countries (sponsored students return to their Ministry/Economic Institution). UK students enter a variety of occupations connected with business and development in Euro-Asia. A minority of students proceed to a PhD and enter academic/research occupations.

Opportunities for study abroad or for placements

The programme does not involve study abroad. However, after the completion of the programme, some students will receive an opportunities of the internships (up to 6 months) in European Bank for reconstruction and Development (London) and Economic Commission for Europe (UN, Geneva).

Programme Outcomes

Knowledge and Understanding

A. Knowledge and understanding of:

- 1. Alternative models of trade and industrialisation in countries undergoing transition.
- 2. The most recent empirical results on the effects of macroeconomic stabilisation policies on key economic and

Teaching/learning methods and strategies Formal lectures, seminars, individual and group presentations, guided reading and guidance on key sources of reference material. Feedback and guidance are important elements of the programme complementing an emphasis on self-study.

- social indicators of development in emerging markets.
- 3. The international institutional environment affecting the economic development of countries undergoing transition.
- 4. Alternative policies for in transition at different levels of development, with different resource endowments and initial conditions.

Assessment

Unseen, timed examinations and coursework comprising long essays, projects, presentations and tests

Skills and other attributes

B. Intellectual skills - able to

- 1. Structure, analyse and evaluate theoretical and policy issues and problems.
- 2. Think logically and analytically and to understand the difference between normative and positive statements.
- 3. Identify key economic relationships and to test these against the evidence.
- 4. Comprehend the rapidly evolving state of knowledge and institutional environment in the subject area.

C. Practical skills - able to

- 1. Draw on the knowledge base in the field of study to suggest policies and strategies to achieve social and economic objectives.
- 2. Evaluate alternative policies.
- 3. Evaluate current theoretical and empirical research in the field of study.
- 4. Identify potential sources of information and analysis relevant to the issue and problems in the field of study.
- 5. Construct and present (orally and in writing) defensible arguments.

Teaching/learning methods and strategies

Students are frequently challenged in all teaching situations to make logical arguments, analyse problems and alternative policies, justify statements. Long essays, debate and presentations provide the principle vehicles for developing intellectual skills.

Assessment

Unseen examination and coursework with 3. being assessed mostly in essays and project work.

Teaching/learning methods and strategies

Students are required to understand a wide amount of reading, both through assigned reading lists and through independent research. Discussion in lectures and seminars emphasises formal economic reasoning, the use of statistical and empirical evidence and the strengths and weaknesses in alternative theories and methodologies.

Assessment

Both examination and coursework.

D. Transferable skills - able to

1. Communicate orally and in writing.

Teaching/learning methods and strategies

The presentation of well researched written work is a fundamental element of the

- 2. Use IT, including internet research.
- 3. Use library based resources.
- 4. Organise extended pieces of work from planning to completion.
- 5. Manage time, prioritise work and work independently.

programme and requires the application of all of the skills listed in 1-5. This is reinforced by the breadth and depth of the syllabuses for each module and the highly structured system of deadlines for assessed work, and examinations which develop the students' skills of time management. Oral skills are developed through lecture and seminar discussions and individual and group presentations.

Assessment

Both examination and coursework with 3 being assessed mostly in essays and project work.

Please note - This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the module description and in the programme handbook. The University reserves the right to modify this specification in unforeseen circumstances, or where the process of academic development and feedback from students, quality assurance processes or external sources, such as professional bodies, requires a change to be made. In such circumstances, a revised specification will be issued.
