MA/Postgraduate Diploma/Postgraduate Certificate in International Relations For students entering in 2009

Awarding Institution:	University of Reading
Teaching Institution:	University of Reading
	Faculty of Social Sciences
Programme length:	12 months
Date of specification:	2009
Programme Director:	Dr Andreas Behnke
Board of Studies:	GIPIS
Accreditation:	The University of Reading

Summary of programme aims

The programme aims to provide students with a deeper knowledge and theoretical understanding of the academic discipline of International Relations than that provided at the undergraduate level. It seeks to acquaint them with the current debates in the field and their relationship to contemporary problems of world politics. It also aims to strengthen their ability for critical analysis of International Relations. It offers the opportunity for specialisation in various aspects of international politics, strategic studies, international political economy, international law, international organisations, and area studies.

Transferable skills

This module will enhance students' capacity for independent study by requiring them to prepare for weekly discussions using recommended bibliographic materials (print and electronic). It will help them to develop further their IT skills by using a variety of internet sites and public access databases in the preparation of assignments. It will enhance their presentational skills by requiring them to make oral presentations to groups of fellow students. It will strengthen their written communication skills through the writing of essays and a dissertation. The dissertation component will strengthen students' research skills and their ability to structure complex subject material as well as evaluate and present their own thinking on a subject in a coherent and precise manner. This module provides training for doctoral programmes as part of the ESRC 1 + 3 scheme.

Programme content

The MA in International Relations consists of 180 credits; a taught element (120 credits) and a dissertation (60 credits). There is a compulsory core module 'International Relations' (30 credits), which runs for two terms (Autumn and Spring). In addition, students choose module options totalling 90 credits from the list below [or one 30 credit option plus the full complement of research training (60 credits)], which run concurrently with the core module. Students may take up to 40 credits in another MA programme subject to the approval of the Director of GIPIS. Students must also write a dissertation (60 credits), which is planned in consultation with a supervisor and submitted for assessment in September.

Mod Code	Module Title	Credits	Level
Compulsory Mo	dules		
PIM09	International Relations	30	7
PIM12	Dissertation	60	7
Research Methods (for MA with research training):			
PIM44	Research Training Philosophical Issues	30	7
PIM45	Research Training Data Collection & Analysis	30	7

Option Postgraduate Modules			
PIM03	Conflict & Conflict Resolution	30	7
PIM21	Contemporary Diplomacy	30	7
LWMTCI	Contemporary Issues in International Law	10	7
LWMIHR	International Human Rights	30	7
LWMTIL	International Law in Theory & Practice	20	7
PIM11	International Security Studies	30	7
PIM15	Political Integration in Europe	30	7
PIM43	Terrorism in a Globalising World	30	7
PIM28	The United Nations, Humanitarian Intervention & Cont	30	7
	Warfare		
PIM29	The Practice of Strategy in History	30	7
PIM30	Strategic Theory	30	7
PIM31	Modern Strategy	30	7

Part-time/Modular arrangements

The programme can be followed part-time over a period of 24 months. It can also be taken on a modular basis for a period up to but not exceeding 72 months.

Progression requirements

None

Summary of teaching and assessment

The programme is taught by a mixture of seminars with student presentations and structured discussion, individual tutorials (especially where the dissertation is involved), and a small number of lectures.

The Core Module and most Option Modules are assessed on the basis of 50 per cent course work and 50 per cent examination (though some Option Modules may also be assessed on the basis of coursework only, or of 75 per cent examination and 25 per cent coursework). The pass mark for all modules is 50 per cent.

The University's taught postgraduate marks classification is as follows:

<u>Mark</u>	<u>Interpretation</u>
70 - 100%	Distinction
60 - 69%	Merit
50 - 59%	Good standard (Pass)
Failing catego	ories:
40 - 49%	Work below threshold standard
0 - 39%	Unsatisfactory Work

For Masters Degrees

To pass the MA students must gain an average mark of 50 or more overall including a mark of 50 or more for the dissertation and have no mark below 40 in any module. The total credit value of all modules marked below 50 must not exceed 55 credits.

Students who gain an average mark of 70 or more overall including a mark of 60 or more for the dissertation and have no mark below 50 will be eligible for a Distinction. Those gaining an

average mark of 60 or more overall including a mark of 50 or more for the dissertation and have no mark below 50 will be awarded eligible for a Merit.

For PG Diplomas

To pass the Postgraduate Diploma students must gain an average mark of 50 or more and have no mark below 40 in any module. In addition the total credit value of all modules marked below 50 must be less than 60 credits.

Students who gain an average mark of 70 or more and have no mark below 50 will be eligible for the award of a Distinction. Those gaining an average mark of 60 or more and have no mark below 50 will be awarded eligible for a Merit.

For PG Certificates

To pass the Postgraduate Certificate students must gain an average mark of 50 or more and have no mark below 40 in any module.

Admission requirements

Entrants to this programme are normally required to have obtained a 2.1 Honours degree or its equivalent and, for students whose first language is not English, an IELTS score of 6.5.

Admissions Tutor: Dr P.J Giddings.

Support for students and their learning

University support for students and their learning falls into two categories. Learning support includes IT Services, which has several hundred computers and the University Library, which across its three sites holds over a million volumes, subscribes to around 4,000 current periodicals, has a range of electronic sources of information and houses the Student Access to Independent Learning (S@IL) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme.

Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and the Student Services Centre. The Student Services Centre is housed in the Carrington Building and includes the Careers Advisory Service, the Disability Advisory Service, Accommodation Advisory Team, Student Financial Support, Counselling and Study Advisors. Student Services has a Helpdesk available for enquiries made in person or online (www.risisweb.reading.ac.uk), or by calling the central enquiry number on (0118) 378 5555. Students can get key information and guidance from the team of Helpdesk Advisers, or make an appointment with a specialist adviser; Student Services also offer drop-in sessions on everything from accommodation to finance. The Carrington Building is open between 8:30 and 17:30 Monday to Thursday (17:00 Friday and during vacation periods). Further information can be found in the Student Diary (given to students at enrolment) or on the Student website (www.reading.ac.uk/student).

GIPIS has its own handbook as well as a full induction programme at the beginning of the university year. Student progress is monitored via termly progress reports written by the Unit Convenor and provided to the Director of Studies. Through its formative essays scheme GIPIS also gives individual help to students whose early assignments have revealed the need for remedial effort to enhance their writing skills.

Career prospects

Students with a postgraduate degree in International Relations may be able to pursue careers in a wide range of areas in government, business, research, journalism, publishing, teaching, and the work of non-governmental organizations. A number of students also go on to further post-graduate studies at the PhD level.

Opportunities for study abroad or for placements

The Graduate Institute has exchange arrangements with Charles University, Prague, and with the Université Libre de Bruxelles. Each year a weeklong study trip to Brussels is organised to visit EU and other governmental and non-governmental institutions.

Educational aims of the programme

Upon completion of the MA programme, students will have broadened and strengthened their knowledge and understanding of International Relations in a systematic way. They will be aware of the main epistemological and theoretical issues relevant to the academic study of International Relations, and of current debates within the discipline. They will have a general familiarisation with the full range of quantitative and qualitative research skills relevant to the study of International Relations and will have practical knowledge of specific methods and research techniques. They will have engaged in a sustained piece of independent and critical research within the context of close and supportive supervision. They will also have acquired non-subject specific research skills and generic skills and knowledge appropriate to a research and other careers.

A. Knowledge and understanding of:

(b) 1	the principal concepts and theories associated with the academic discipline of International Relations; the major issues and debates in contemporary world politics and the relevance of International Relations	
1	theory to these questions; specific aspects of International	
	Relations; research methods	

Knowledge and Understanding

Teaching/learning methods and strategies

Students will be taught by means of seminars with students presentations and structured discussion, individual tutorials, and a limited number of lectures. In the Core module students will become familiar with the key concepts and theories of International Relations and with the major issues and debates. In the Option modules, students will gain specialised knowledge of different aspects of International Relations, including international politics, strategic studies, international political economy, international law and international organisations. In the Research Methods module, students will become familiar with the full range of quantitative and qualitative research skills and underlying issues, train in a range of methods of data collection and analysis, and acquire an understanding of the main epistemological and theoretical issues in the social sciences. In the Dissertation module, students will, under the guidance of dissertation supervisor, apply appropriate methods of analysis to a specific topic, taking increasing responsibility for their own learning.

Assessment

Students' knowledge is tested through a combination of coursework, examinations and a dissertation.

Skills and other attributes

B. Intellectual skills – able to:	Teaching/learning methods and strategies
 (a) analyse and interpret patterns and processes of world politics in a theoretically aware manner; (b) identify and employ relevant scholarly literature in support of one's own research; (c) demonstrate a sound understanding of research methods and techniques appropriate to the study of International Relations; (d) structure complex arguments; (e) criticise and defend intellectual positions in a well reasoned and empirically substantiated fashion; 	These intellectual skills will be taught in all modules: Core, Option, Dissertation and (for the MA in research training), Research Methods. These skills will be taught by means of seminars with students presentations and structured discussions, some individual tutorials, essay writing, workshops and the writing of a dissertation. Additional training will be available to students through study visits to the library and other research resources, and through the support of Study Advisors.
(f) express oneself orally and in writing in a cogent and effective manner.	Assessment All these intellectual skills are assessed
C. Practical skills – able to:	throughout the programme in termly essays, exams and the dissertation. Teaching/learning methods and
a) cull relevant material from select bibliographies for the preparation of oral presentations and written	<pre>strategies The Graduate Institute's induction day includes an introduction to the use of the Use of the use of the</pre>
 assignments; b) use library and electronic resources, including databases and websites, for the purpose of conducting research; c) budget one's time satisfactorily for 	University Library and other relevant resources. Students learn through independent study, availing themselves when necessary of guidance from the Course Convenor and Study Skills
 budget one's time substactory for the completion of weekly assignments, exam preparation and the writing of a dissertation; memorise and recall key concepts, 	Advisors. <i>Assessment</i> The practical skills developed during the

Please note - This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the module description and in the programme handbook. The University reserves the right to modify this specification in unforeseen circumstances, or where the process of academic development and feedback from students, quality assurance processes or external sources, such as professional bodies, requires a change to be made. In such circumstances, a revised specification will be issued.
