Summary of programme aims

The central aim of the programme is to enable students to gain an understanding of major areas of cinema and of theatre since the late nineteenth century and a framework for examining changing categories of art, architecture and visual artefacts in different places and times. Students will experience some of the varied achievements of filmmakers, writers and theatre practitioners and become familiar with a range of perspectives which can inform analysis of film and theatre texts, gain an understanding of the methods of analysis particular to art historical enquiry, and appreciate the changing nature of the discipline's priorities, approaches and focuses of study.

Transferable skills

During the course of their studies at Reading, all students will be expected to enhance their academic and personal transferable skills in line with the University's Strategy for Learning and Teaching. In following this programme, students will have had the opportunity to develop such skills, in particular relating to communication, interpersonal skills, learning skills, self-management, use of IT and problem-solving and will have been encouraged to further develop and enhance the full set of skills through a variety of opportunities available outside their curriculum.

On completion of this programme, students are expected to have developed a range of transferable skills including: fluency in writing and oral communication; the ability to formulate and evaluate their own arguments and those of others; to translate subject-specific knowledge and skills to new environments; the ability to find and use relevant information resources, to manage their time effectively, and use basic word-processing, information retrieval and IT skills; the ability to work co-operatively with others. The programme will include opportunities to develop skills at making oral presentations and to use visual images to support an argument.

In Film & Theatre Part 1 assessment is by a mixture of coursework and unseen examination. The Part 3 joint dissertation comprises a piece of independent research, directed through one-to-one tutorials, and assessed entirely through coursework.

Support for students and their learning

University support for students and their learning falls into two categories. Learning support is provided by a wide array of services across the University, including: the University Library, the Student Employment, Experience and Careers Centre (SECC), In-session English Support Programme, the Study Advice and Mathematics Support Centre teams, IT Services and the Student Access to Independent Learning (S@il) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and advisers in the Student Services Centre. The Student Services Centre is housed in the Carrington Building and offers advice on accommodation, careers, disability, finance, and wellbeing. Students can get key information and guidance from the team of Helpdesk Advisers, or make an appointment with a specialist adviser; Student Services also offer drop-in sessions and runs workshops and seminars on a range of topics. For more information see www.reading.ac.uk/student

Students receive Handbooks from both Departments, which give details of the Programme, guidance on study skills such as note-taking and essay writing, and information about staff, facilities, and sources of specialised help within the University, such as the Study Skills Advisor and the Counselling Service. The Programme is designed to give students extensive teaching support in Part 1 leading to more independent work in Part 3. Academic feedback and guidance is given through detailed comments (oral and/or written), and academic and personal support is provided through the personal tutor system and PDP. Dissertation workshops prepare students for the Part 3 dissertation, which is individually supervised. A video-viewing suite is available within the Faculty (on the Whiteknights campus). The Department of Film, Theatre & Television has an extensive collection of films and television programmes (currently about 6,000), to which students may have access, and a range of viewing facilities. In History of Art, additional support is provided through a subject-specific reading room containing essential course texts, reference works, some current periodicals and photocopying facilities. There is also a slide library containing 84,000 slides from all periods of art and architecture history, which students will consult as part of their studies. It includes resources in videotapes and computers. First hand study of works of art is provided through particular classes taught in museums, art galleries or on architectural visits

and by a period of study at a centre abroad, as well as through the Department's own collections mainly of drawings.

The Library, which has buildings on both the Whiteknights and Bulmershe campuses, has an extensive collection of printed materials as well as electronic databases, such as the OED, the MLA Bibliography, and the DNB on CD ROM, and such on-line resources as JSTOR and First Search. Specialist subject librarians are available to give students advice and guidance to library resources.

Career prospects

Since Film & Theatre and History of Art is not a vocational programme, career possibilities are very wide ranging. Graduates find that the specific as well as the transferable skills developed by the programme enable them to enter many fields of work including education, banking, commerce and industry, arts administration, advertising, accountancy, personnel, the civil service, local government and the performance/media industries. In addition, a number of specialised careers are open to History of Art graduates, such as jobs in Museums, auction houses and increasingly the heritage and leisure industries. Students may also go on to post-graduate study in both subject areas at MA and PhD levels, both at Reading and elsewhere.

Opportunities for study abroad or for placements
