Summary of programme aims

Both Departments share the aims and objectives laid down for the Reading graduate in the University's Strategy for Teaching and Learning. The Philosophy strand of the programme specifically aims to provide a grounding in the subject, enabling students to examine critically fundamental beliefs about truth and reality, right and wrong, to comprehend concepts essential for philosophical investigation, to develop an understanding of central philosophical problems, texts and figures, to develop an aptitude and enthusiasm for the subject, to engender a sense of belonging to a community of enquiry, and to prepare where appropriate for postgraduate study. The programme provides a supportive learning environment with full access to welfare, pastoral and careers support.

Bridge modules such as Contemporary Political Philosophy, International Ethics, Fairness, and the Dissertation module offer students an opportunity to reflect on philosophical issues in International Relations. (Not all these modules may run in any one year).

The International Relations strand aims to give students an appreciation of the normative, methodological and institutional issues involved in the study of politics in relation to the subfield of international relations. Students focus on compulsory modules in international relations and associated optional modules. The strand also provides a supportive learning environment with full access to welfare, pastoral and careers support.

Transferable skills

During the course of their studies at Reading, all students will be expected to enhance their academic and personal transferable skills in line with the University's Strategy for Learning and Teaching. In following this programme, students will have had the opportunity to develop such skills, in particular relating to communication, interpersonal skills, learning skills, numeracy, self-management, use of IT and problem-solving and will have been encouraged to further develop and enhance the full set of skills through a variety of opportunities available outside their curriculum.

The Philosophy strand will help students develop skills such as: presenting a coherent talk delivered from notes, producing concise and accurate written reports, the ability to critically discuss particular issues and arguments, and to engage in discussion of each other's responses as well as articulate the student's own views. The Philosophy strand also encourages the ability to handle abstract ideas and utilise problem-solving skills.

The International Relations strand lends itself to critical judgement and problem-solving, both through personal engagement with issues and through dialogue and group discussion. Students are encouraged to defend and to challenge established positions through the collection, collation and analysis of substantial quantities of material, the rigour of argument, and effective communication and presentation. The disciplines also prompt an awareness of numeracy through chronology, periodisation, and basic quantification. The strand develops students' familiarity with information technology in the production and presentation of their work and develops their skills in using computers for the location and retrieval of bibliographic and source material, accessing sophisticated databases and exploiting the internet.

2. a mark of at least 30% in individual modules amounting to not less than 100 credits taken in Part 2.

Summary of Teaching and Assessment

Teaching within the Philosophy programme combines lectures, small group seminars and essay supervisions, with appropriate visual aides and course materials being provided throughout. The final assessment for all Philosophy modules in all Parts (bar the Dissertation in Part 3) is by a combination of assessed coursework and unseen examination.

All International Relations modules other than Study of Politics and the Dissertation are assessed by a mixture of coursework (25%) and examination (75%).

Weighting between Part 2 and Part 3 for classification purposes is 33% and 67%.

Admission requirements

Entrants to this programme are normally required to have obtained:

Grade C or better in English in GCSE; and achieved

UCAS Tariff: 320 points from three subjects, and 340 from 3 A level and 1 AS level

International Baccalaureat: 30 points

Irish Leaving Certificate: BBBCC in 5 Higher Level subjects

Two AS grades are accepted in place of one A-Level

Mature Students: Applications from mature students are welcomed. A mature applicant is more likely to receive an offer of a place if he or she has undertaken recent study, for example 2 or more A levels or an Access course, but each case is assessed on its relative merits. We recommend you contact an admissions tutor as soon as possible to discuss your individual circumstances.

International Students: Applications from international candidates are welcomed. If you are not offering A levels we advise you to contact either the EU or the international admissions tutor before applying in order to discuss the acceptability of your qualifications.

Admissions Tutor: Dr Bart Streumer (Philosophy), Dr O.Tansey (Politics)

Support for students and their learning

University support for students and their learning falls into two categories. Learning support is provided by a wide array of services across the University, including: the University Library, the Student Employment, Experience and Careers Centre (SEEC), In-session English Support Programme, the Study Advice and Mathematics Support Centre teams, IT Services and the Student Access to Independent Learning (S@il) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and advisers in the Student Services Centre. The Student Services Centre is housed in the Carrington Building and offers advice on accommodation, careers, disability, finance, and wellbeing. Students can get key information and guidance from the team of Helpdesk Advisers, or make an appointment with a specialist adviser; Student Services also offer drop-in sessions and runs workshops and seminars on a range of topics. For more information see www.reading.ac.uk/student

Within the Philosophy strand, information and guidance is offered through the Part 1 Handbook, and the B.A Course Handbook (covering Parts 2 and 3). There are also a Part 1 co-ordinator and a B.A. Honours Course co-ordinator, who can be consulted on module choices within each part of the programme.

Within the International Relations strand, students are provided with Politics Handbooks that outline the programme, provide guidance on study skills, and contain information on staff, facilities and specialised sources of help within the University. Additional support is given in the study of Politics module in Part 2. Support for students in their studies is provided through the University's Personal Academic Record (PAR) scheme, in which students meet their personal tutors regularly to review their progress.

Career prospects

This degree can lead to a wide range of jobs, such as the public services (civil service, local government, public corporations, hospital management, etc), the social services (child care, youth employment, probation, etc), advertising, journalism, radio and television, management traineeships in industry, professions such as accountancy and law (barristers and solicitors alike), banking and insurance, and various research agencies. There is some evidence that IT firms appreciate the logical and analytic skills of developed especially in Philosophy's Logic module.

Opportunities for study abroad or for placements

Students may choose to spend part of their second year studying at a University in another European country, via the Socrates programme. Subject to availability of places, there may also be the opportunity to study for a semester in the United States under the American Studies exchange programme. While such exchanges may involve some additional financial expenditures and some adjustments to coursework at Reading, the Department believes these exchanges offer an excellent opportunity to broaden educational and life experience. In the first instance, interested students see their personal tutor.

Programme Outcomes

The programme provides opportunities for students to develop and demonstrate knowledge and understanding, skills, qualities and other attributes in the following areas:

A. Knowledge and understanding of:

Fundamental concepts of Philosophy and of Political Theory and major texts from the Greeks to the present time.

The comparative analysis of government institutions, political movement and the social bases of politics.

The various approaches and the study of Modern International Relations.

Some current research in philosophy

A range of selected specialized subjects within the fields of Political Theory, Comparative Government and International Relations.

Teaching methods and strategies

Lectures, seminar discussions, and individual essay feedback, prescribed and recommended reading, and the writing of essays and a dissertation. In Part 1 and Part 2 students attend both lectures and seminars, which in Part 3 most teaching is through seminars. Part 1 modules introduce 1, 2 and 3. Part 2 modules deepen and develop students' understanding of these areas. The optional modules in 4 & 5 build on the modules in 1, 2 and 3.
