Summary of programme aims

The programme aims to provide a through degree level education in Classical and Medieval Studies. It aims to produce graduates who have experience of literary, thematic and genre-based approaches to both the cultures of antiquity and the Medieval period. Students explore issues of critical and historical interpretation and engage with primary sources from both eras.

Transferable skills

During the course of their studies at Reading, all students will be expected to enhance their academic and personal transferable skills in line with the University's Strategy for Learning and Teaching. In following this programme, students will have had the opportunity to develop such skills, in particular relating to communication, interpersonal skills, learning skills, numeracy, self-management, use of IT and problem-solving and will have been encouraged to further develop and enhance the full set of skills through a variety of opportunities available outside their curriculum.

Medieval and Classical Studies are disciplines which lend themselves to critical judgement and problem-solving, both through personal engagement with issues and through dialogue and group discussion. Also integral is the collection, collation and analysis of substantial quantities of material and its communication and presentation. Both fields of study also prompt an awareness of numeracy through chronology, periodisation, and basic quantification. In addition, the development of powerful tools of research, analysis and presentation associated with information technology is reflected in several ways, such as in the location and retrieval of bibliographic and source material, the production and presentation of student work, and, where appropriate, the use of more sophisticated databases and exploitation of the internet.

Programme content

Part-time degree programmes, like full-time programmes, are made up of study elements called modules. The size of a module is measured in terms of credits, a credit entails a notional 10 hours of study. For a full-time programme each year contains modules totalling 120 credits. Most modules are 20 credits in size but some are 10 credits and others are multiples of 20 credits (for example dissertations are often 40 credits in size).

Modules are offered at one of three levels. In ascending order these are:

- Certificate (C) level 4
- Intermediate (I) level 5
- Honours (H) level 6

All part-time degree programmes entail study of modules totalling a minimum of 360 credits. Students must take the compulsory and optional modules required for their degree programme, the following minimum number of credits being required at the levels indicated:

- Certificate level 4 100 credits minimum
- Intermediate level 5 100 credits minimum
- Honours level 6 100 credits minimum

Part-time programmes are divided into two sections:

Part 1 involves studying modules totalling at least 80 credits and no more than 120 level 4 credits (120 credits are equivalent to one year of full-time study), then listing the Part 1 Examination in order to preview to the remainder of the degree. Post-Part1, where students take the remaining modules needed to complete their degree programme, students must take at level 4 those modules required for progression to one or more degree subjects,

but may take individual modules from any available programme to make up the necessary minimum total of 100 credits at level 4. Career Management Skills (delivered in module CL2CMS) contributes 5 credits' worth of marks to the average for Part 2. Students must complete at least 80 credits at level 5 before they can proceed to study any level 6 modules.

The content of this programme is:

Part 1 introduces students to the disciplines; Part 2 develops skills through the study of broad, contrasting genres and periods, and Part 3 contains the detailed focus and specific research work. Not all optional modules will necessarily be available in any year. Admission to optional modules will be at the discretion of the Programme Director.

Support for students and their learning

University support for students and their learning falls into two categories. Learning support is provided by a wide array of services across the University, including: the University Library, the Student Employment, Experience and Careers Centre (SEEC), In-sessional English Support Programme, the Study Advice and Mathematics Support Centre teams, IT Services and the Student Access to Independent Learning (S@il) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and advisers in the Student Services Centre. The Student Services Centre is housed in the Carrington Building and offers advice on accommodation, careers, disability, finance, and wellbeing. Students can get key information and guidance from the team of Helpdesk Advisers, or make an appointment with a specialist adviser; Student Services also offer drop-in sessions and runs workshops and seminars on a range of topics. For more information see www.reading.ac.uk/student

Departmental Handbooks are provided to students in the first year, and are available via Blackboard. The Departmental Libraries contain a range of reference works which can be used by students and offer congenial study spaces. The Department of Classics is the Curator of the Ure Museum of Greek Archaeology. In the History Department, students are supported and advised by the Degree Course Tutor. There is also full written feedback on essay work. Each module teacher gives personal guidance and feedback and sends termly reports on progress to Personal Tutors for discussion with students.

Career prospects

Graduates in Classical and Medieval Studies have found that their degree course has been a good basis for careers in management, administration, the civil service, commerce, law, publishing, librarianship and teaching. Graduates have also gone on to postgraduate courses at Reading and elsewhere.

Opportunities for study abroad or for placements

Students are encouraged to study for a period abroad (normally in Part 2) either within Europe via the ERASMUS programme or at one of the University of Reading's non-European partner institutions. They will require the consent of the departmental study abroad coordinator in order to participate. Full details of potential destinations can be found on both the departmental and Erasmus & Study Abroad websites. Application early in the preceding year (autumn term/very early spring term) is essential. Students are also encouraged to apply to the British School at Athens, where they may take a module for credit, or the British School at Rome.
