Summary of programme aims

This is a multi-disciplinary programme which aims to provide students with subject specific knowledge and more general skills, including knowledge of a variety of different kinds of English texts and Classical literature, art, philosophy, and their reception in modern culture, as well as perspectives on different methods of critical analysis. The programme also aims to foster an independent approach to formulating problems and arguments, using the close reading and analytical skills that are fundamental to both disciplines. There is provision for the development of students' specific interests through independent study for the dissertation.

Transferable skills

During the course of their studies at Reading, all students will be expected to enhance their academic and personal transferable skills. In following this programme, students will have had the opportunity to develop such skills, in particular relating to career management, communication, interpersonal skills, learning skills, numeracy, self-management, use of IT and problem-solving and will have been encouraged to further develop and enhance the full set of skills through a variety of opportunities available outside their curriculum.

On completion of this programme, students are expected to have developed a range of transferable skills including: fluency in writing and oral communication, the ability to formulate and evaluate their own arguments and those of others, to translate subject-specific knowledge and skills to new environments, the ability to find and use relevant information resources, to manage their time effectively, and use basic word-processing and IT skills; the ability to work co-operatively with others; and the ability to enhance their skills in relationship to career management.

Support for students and their learning

University support for students and their learning falls into two categories. Learning support is provided by a wide array of services across the University, including: the University Library, the Careers, Placement and Experience Centre (CPEC), In-session English Support Programme, the Study Advice and Mathematics Support Centre teams, IT Services and the Student Access to Independent Learning (S@il) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and advisers in the Student Services Centre. The Student Services Centre is housed in the Carrington Building and offers advice on accommodation, careers, disability, finance, and wellbeing, academic issues (eg problems with module selection) and exam related queries. Students can get key information and guidance from the team of Helpdesk Advisers, or make an appointment with a specialist adviser; Student Services also offer drop-in sessions and runs workshops and seminars on a range of topics. For more information see www.reading.ac.uk/student

Students receive Handbooks from both Classical Studies and English which give details of the programme, guidance on study skills such as note-taking and essay writing, and information about staff, facilities, and sources of specialized help within the University, such as the Study Skills Advisor and the Counselling Service. Both components of the programme are designed to support students throughout their degree course while encouraging more independent work in Part 3. Academic feedback and guidance is given through one-to-one essay tutorials, and academic and personal support is provided through the tutor system and the University's i-Learn Scheme. Dissertation workshops prepare students for the Part 3 dissertation which is individually supervised. The Department of Classics is the Curator of the Ure Museum of Greek Archaeology. The Geoffrey Matthews Collection, housed in the School of English, provides books, xeroxed materials, cassettes and an extensive collection of videos for loan to students. A video-viewing suite is available within the Faculty. The Library is well-stocked with printed materials as well as electronic databases, such as the OED, the MLA Bibliography, and the DNB on CD ROM, and such on-line resources as JSTOR and First Search. Specialist subject librarians are available to give students advice and guidance to library resources.

Career prospects

In recent years students who have gained degrees in Classical Studies and English have gone into a wide variety of jobs, including teaching, publishing, journalism, the media, management, administration, and public relations. The degree programme provides graduates with a range of communication and analytical skills that will serve them in good stead in the marketplace. A number of graduates each year also go on to further academic study and research.

Opportunities for study abroad or for placements

CL2PL is the placement module Work Placement for Classicists and Ancient Historians. It gives students the opportunity to gain experience in a graduate level employment position. Students find their own placements (that is part of the exercise), but they are guided and supported in this by the Department. Students also have the opportunity to take any one module in English Literature at Part 2 or Part 3 as a placement module. Students are encouraged to study abroad for a term to a year (normally in Part 2) either within Europe via the ERASMUS programme or at one of the University of Reading's non-European partner institutions. They will require the consent of the departmental study abroad coordinator in order to participate. Full details of potential destinations can be found on both the departmental and Erasmus & Study Abroad websites. Application early in the preceding year (autumn term/very early spring term) is essential.
