Summary of programme aims

The MA (Res) programme in Ethics and Political Theory aims to enable students

- to build upon undergraduate studies in philosophy, history, politics, or social science;
- to master current debates in ethics and political theory;
- to gain familiarity with the major intellectual traditions in the field;
- to develop their research skill and prepare them, where appropriate, for a research degree.

Transferable skills

The University's Strategy for Teaching and Learning has identified a number of generic transferable skills which all students are expected to have developed by the end of their degree programme. In following this programme, students will have had the opportunity to enhance their skills relating to research, communication of complex material (both written and oral), information handling, time management, problem-solving, self-directed learning and use of information technology. The MA in Ethics and Political Theory will help students develop skills such as: synthesising information from a range of sources, providing a coherent overview of competing theories and positions on a topic; analysing and critically evaluating competing theories and positions, and arguing for the merits of one or another of these; planning and producing a substantial piece of research under supervision, as a potential foundation for further study; utilising, at a reasonably sophisticated level, the conceptual tools and problem-solving skills acquired as an undergraduate.

Support for students and their learning

University support for students and their learning falls into two categories. Learning support is provided by a wide array of services across the University, including: the University Library, the Careers, Placement and Experience Centre (CPEC), In-session English Support Programme, the Study Advice and Mathematics Support Centre teams, IT Services and the Student Access to Independent Learning (S@il) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and advisers in the Student Services Centre. The Student Services Centre is housed in the

Carrington Building and offers advice on accommodation, careers, disability, finance, and wellbeing, academic issues (eg problems with module selection) and exam related queries. Students can get key information and guidance from the team of Helpdesk Advisers, or make an appointment with a specialist adviser; Student Services also offer drop-in sessions and runs workshops and seminars on a range of topics. For more information see www.reading.ac.uk/student

Career prospects

Over the years students who have followed the MA programmes in Philosophy and Ethics and Political Theory have gone into jobs in both the public and private sectors. Some go on to further study at PhD level and obtain academic and academic-related jobs (e.g. lectureships, administrative posts on research boards, schoolteaching). Some enter thinktanks or the civil service. In the private sector, recent jobs include law, business, journalism, and IT. In general, there is evidence that IT firms appreciate the logical and analytic skills of philosophers. Furthermore, a survey by the Royal Institute of Philosophy found that graduates with British Philosophy degrees consider their degree course to have been very relevant to their jobs, and report a very high level of job satisfaction.
