

MA in Social Development & Sustainable Livelihoods (full-time)
For students entering in 2014/5

Awarding Institution:	University of Reading
Teaching Institution:	University of Reading
Relevant QAA subject Benchmarking group(s):	
Faculty:	Life Sciences Faculty
Programme length:	1 year
Date of specification:	19/Sep/2014
Programme Director:	Dr Henny Osbahr
Programme Advisor:	
Board of Studies:	Graduate Institute of International Development and Applied Economics
Applied Economics	
Accreditation:	

Summary of programme aims

The aims of the programme in Social Development and Sustainable Livelihoods are to:

- Develop an understanding of the conceptual and theoretical frameworks for the analysis of social development and sustainable livelihoods;
- Strengthen professional competence in the design, implementation and critical evaluation of planned development policy and interventions to improve household and community livelihoods.

Transferable skills

The programme requires a substantial amount of independent reading, research and study and students are expected to take personal responsibility and show initiative in developing their knowledge and understanding of the field of study. In following this programme, students will also have the opportunity to enhance and develop their skills relating to communication (oral and written), presentation, critical analysis and problem solving, teamwork, and the use of information technology. Students will learn to work both independently and in groups, under time pressures, and will learn to set priorities and manage their time in order to meet deadlines. Career planning and building employability is an integral part of the programme.

Programme content

Programme content

Postgraduate Certificate (60 credits):

The Postgraduate Certificate programme is a flexible programme comprising any 60 credits drawn from the MSc taught modules (excluding the dissertation) subject to agreement by the Programme Director.

Postgraduate Diploma (120 credits):

The Postgraduate Diploma programme is a flexible programme comprising any 120 credits drawn from the MSc taught modules (excluding the dissertation) subject to agreement by the Programme Director.

MA in Social Development and Sustainable Livelihoods (180 credits):

Students take the six compulsory modules (worth 70 credits) (IDM001, IDM013, IDM093, IDM024, IDM046 and IDM071). Students select a further 50 credits from a wide range of modules, subject to satisfying any module pre-requisites, to total 120 credits from the taught component of the programme. The MA additionally involves a dissertation project worth 60 credits.

Compulsory modules:

<i>Code</i>	<i>Module title</i>	<i>Credits</i>	<i>Level</i>
IDM001	Perspectives on Development	20	7
IDM013	Participatory Interventions in Development	10	7
IDM093	Poverty, Wealth and Inequalities	10	7
IDM024	Social Policies for Development	10	7
IDM046	Governance, Accountability and Development	10	7
IDM071	Research and Study Skills for Independent Learning	10	7
IDM072	Dissertation	60	7

Optional modules (50 credits):*

ECM186	Social Policy of Health and Ageing	20	7
IDM012	Gender and Development	10	7
IDM077	Food Security and Development	10	7

IDM066	Communication and Innovation in Development	10	7
IDM091	Global Environmental Change and Development	10	7
IDM075	Microfinance	10	7
APME40	Qualitative Research Methods	10	7
APME72	Agricultural Project Planning and Management in Developing Countries	20	7
APME61	Appraisal of Agricultural and Rural Development Projects	10	7
REMP23	Urbanisation and Issues in Urban Governance	20	7

Support Module (non-credit bearing)

*IDM089 Personal and Professional Development for International Students** 0 7*

**These modules are a guide to the options available - students may select more widely from the module booklet in consultation with the Programme Director and subject to timetabling constraints.*

*** the Personal and Professional Development programme is for international students (although employability events are open to all students)*

Part-time or modular arrangements

All students have the modular flexibility described in the 'Programme content' section above. Part-time students may build up their modular credits towards a Diploma or MA over an extended period.

Progression requirements

Teaching is organised in modules that typically involve a combination of lectures and seminars. Some lecture based modules are supported by workshops or computer lab sessions. Modules are assessed by a combination of course work and/or formal examination. Examinations will normally take place at the beginning of the Summer Term.

A dissertation supervisor is appointed for each student.

The University's taught postgraduate marks classification is as follows:

Mark Interpretation

70 - 100% Distinction

60 - 69% Merit

50 - 59% Good standard (Pass)

Failing categories:

40 - 49% Work below threshold standard

0 - 39% Unsatisfactory Work

For Masters Degrees

To pass the MA students must normally gain an average mark of 50 or more overall including a mark of 50 or more for the dissertation. In addition the total credit value of all modules marked below 40 must not exceed 30 credits and for all modules marked below 50 must not exceed 55 credits.

Students who gain an average mark of 70 or more overall including a mark of at least 60 in the dissertation and have no mark below 40 will be eligible for a Distinction. Those gaining an average mark of 60 or more overall including a mark of at least 50 in the dissertation and have no mark below 40 will be eligible for a Merit.

For PG Diplomas

To pass the Postgraduate Diploma students must normally gain an average mark of 50 or more. In addition the total credit value of all modules marked below 40 must not exceed 30 credits and for all modules marked below 50 must not exceed 55 credits.

Students who gain an average mark of 70 or more and have no mark below 40 will be eligible for the award of a Distinction. Those gaining an average mark of 60 or more and have no mark below 40 will be eligible for a Merit.

For PG Certificates

To pass the Postgraduate Certificate students must normally gain an average mark of 50 or more. In addition the total credit value of all modules marked below 40 must not exceed 10 credits.

Summary of Teaching and Assessment

Teaching is organised in modules that typically involve a combination of lectures and seminars. Some lecture based modules are supported by workshops or computer lab sessions. Modules are assessed by a combination of course work and/or formal examination. Examinations will normally take place at the beginning of the Summer Term.

A dissertation supervisor is appointed for each student.

Admission requirements

Entrants to this programme are normally required to have obtained an honours degree or its equivalent in a relevant subject but applicants with other qualifications as may be approved by the Senate, and who have at least 2 years' professional experience in a relevant field of development work are also eligible to apply for admission to this programme. References are also taken into account.

Admissions Tutor: The Programme Director is responsible for admission

Support for students and their learning

University support for students and their learning falls into two categories. Learning support is provided by a wide array of services across the University, including: the University Library, the Careers, Placement and Experience Centre (CPEC), In-session English Support Programme, the Study Advice and Mathematics Support Centre teams, IT Services and the Student Access to Independent Learning (S@il) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and advisers in the Student Services Centre. The Student Services Centre is housed in the Carrington Building and offers advice on accommodation, careers, disability, finance, and wellbeing, academic issues (eg problems with module selection) and exam related queries. Students can get key information and guidance from the team of Helpdesk Advisers, or make an appointment with a specialist adviser; Student Services also offer drop-in sessions and runs workshops and seminars on a range of topics. For more information see www.reading.ac.uk/student

A comprehensive 'Programme Handbook', which includes a detailed outline of the programme, its constituent modules and assessment guidelines, can be found on the Graduate Institute's Blackboard site. Day to day queries regarding academic matters (e.g. time-tabling) should be addressed in the first instance to the Postgraduate Student Office in the School of Agriculture, Policy and Development or, where necessary, the Programme Director.

A Study Skills module is available to support learning throughout the taught component of the programme and to develop independent learning skills required for successful completion of the Dissertation.

Career prospects

Graduates from the SDSL programme are currently employed as officers in governmental and non-governmental development agencies around the world, as well as in research, consultancy and publicity posts. Recent contacts include former students working in the World Food Programme, Rome; in FAO, Rome; in the International Red Cross in Geneva, Thailand and Liberia; in agricultural research in Laos; with DEFRA, UK as self-employed consultants; as well as those who returned to their own countries to work in Ministries of Development, Agriculture, Education, Health, or in local NGOs for example in Malaysia, Japan, Ethiopia and Uganda. Others have set up their own NGOs. Social Development studies equip a person with many skills; some have gone on to do further research or doctoral study, while other ex-students have taken up political roles in order to advance their country's development progress.

Opportunities for study abroad or for placements

With the agreement of the supervisor, students may be allowed to study abroad or take up placements during the Summer Term as part of their dissertation work

Programme Outcomes

Knowledge and Understanding

A. Knowledge and understanding of:

1. the historical and ideological forces which have shaped the theory and practice of social development
2. the basic principles of social systems and their relevance to the planning, implementation and analysis of development initiatives
3. how to apply appropriate concepts to analyse the effects of planned development initiatives upon the livelihoods of poor and disadvantaged people

Teaching/learning methods and strategies

Mixture of lectures, seminars, directed reading, group and individual project work, individual and group presentations, guided reading. Discussions in small groups complement self-directed study

Assessment

By coursework and, in some cases, formal examinations; coursework to include essay assignments and presentations

Skills and other attributes

B. Intellectual skills -able to:

1. critically analyse written texts
2. assess current development strategies
3. identify development approaches and evaluate them in terms of practice and outcome
4. understand the complexity of development dialogues
5. place in a historical/comparative context current development choices
6. think logically and argue a case for/against a position

Teaching/learning methods and strategies

Students are required to discuss, analyse, and evaluate written and oral texts in small group discussions, in debates and in written assignments. Group work and presentations facilitate learning.

Assessment

Formative assignments and presentations:
coursework: examinations

C. Practical skills -able to:

1. ability to write competently in an academic style
2. ability to argue logically
3. ability to critically evaluate statements and literature
4. apply a range of frameworks in the evaluation and implementation of development interventions
5. data collection and analysis
6. evaluate the effectiveness of development policies and strategies

Teaching/learning methods and strategies

Students are required to absorb, evaluate a wide range of reading related to development theory and policy; and to research/investigate their own reference materials for group and individual work. Interactive sessions throughout the programme achieve the learning skills.

Assessment

Assignments, coursework, discussions, examination

D. Transferable skills -able to:

1. communicate effectively
2. evaluate own academic progress (self-assessment)
3. collect and analyse data
4. think critically
5. demonstrate competent writing skills
6. exhibit time management/working to deadlines

Teaching/learning methods and strategies

Oral and written skills are developed/enhanced through critical discussion, self and peer evaluation in addition to formal assessments.

Assessment

Assignment, coursework, examination, discussion, formative tasks and presentations.
Dissertation

Please note - This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on

the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the module description and in the programme handbook. The University reserves the right to modify this specification in unforeseen circumstances, or where the process of academic development and feedback from students, quality assurance process or external sources, such as professional bodies, requires a change to be made. In such circumstances, a revised specification will be issued.
