Summary of programme aims

The programme aims to provide a thorough degree level education in Classical Studies. The syllabus aims to familiarise students with the literature, art, philosophy and history of Greek and Roman cultures and their reception and use in modern culture, whilst providing them with the opportunity to study more thematic topics in depth. The programme also provides for the development of the specific interests of students through independent study and specifically the dissertation. Students are encouraged to include elements of ancient languages throughout their degree programme. Students will expand the range, depth and sophistication of their knowledge of Classical Studies through the structured progression of Parts 1, 2, and 3 of the programme.

Transferable skills

During the course of their studies at Reading, all students will be expected to enhance their academic and personal transferable skills. In following this programme, students will have had the opportunity to develop such skills, in particular relating to communication, interpersonal skills, learning skills, numeracy, self-management, use of IT and problem-solving and will have been encouraged to further develop and enhance the full set of skills through a variety of opportunities available outside their curriculum.

Programme content

Part 1 introduces students to the study of Greek and Roman culture, with a particular emphasis upon the development of the study of primary sources and source criticism, alongside the development of writing skills to explore specific topics in Greek and Roman Civilisations. Part 2 develops the student's knowledge of ancient literature and develops an awareness of the role of the classics in the shaping of the modern Western culture via compulsory core modules which also develop their literary skills. In addition, students choose three option modules that are either more thematic or add greater depth than the core modules. In Part 3, there is an increasing specialisation and progression to approach topics in greater depth through the provision of optional modules and the opportunity to research a dissertation topic in depth.

Not all options will necessarily be available every year. Admission to options will be at the discretion of the Programme Director.

In Parts 2 and 3, up to 20 credits can be taken from modules available elsewhere in the University.

Support for students and their learning

University support for students and their learning falls into two categories. Learning support is provided by a wide array of services across the University, including: the University Library, the Careers, Placement and Experience Centre (CPEC), In-session English Support Programme, the Study Advice and Mathematics Support Centre teams, IT Services and the Student Access to Independent Learning (S@il) computer-based teaching and learning facilities. There are language laboratory facilities both for those students studying on a language degree and for those taking modules offered by the Institution-wide Language Programme. Student guidance and welfare support is provided by Personal Tutors, School Senior Tutors, the Students' Union, the Medical Practice and advisers in the Student Services Centre. The Student Services Centre is housed in the Carrington Building and offers advice on accommodation, careers, disability, finance, and wellbeing, academic issues (eg problems with module selection) and exam related queries. Students can get key information and guidance from the team of Helpdesk Advisers, or make an appointment with a specialist adviser; Student Services also offer drop-in sessions and runs workshops and seminars on a range of topics. For more information see www.reading.ac.uk/student

The Department of Classics is the Curator of the Ure Museum of Greek Archaeology.

Career learning

Career prospects

Graduates in Ancient History have found that their degree course has been a good basis for careers in management and administration; the civil service; commerce; law; the media including journalism, broadcasting

and publishing; librarianship; and teaching. Graduates have also gone on to postgraduate courses within the field of the Classics at Reading and elsewhere.

Opportunities for study abroad

As part of the degree programme students have the opportunity to study abroad at an institution with which the University has a valid agreement.

CL2PL is the placement module Work Placement for Classicists and Ancient Historians. It gives students the opportunity to gain experience in a graduate level employment position. Students find their own placements (that is part of the exercise), but they are guided and supported in this by the Department.

Students are encouraged to study abroad for a term to a year (normally in Part 2) either within Europe via the ERASMUS programme or at one of the University of Reading's non-European partner institutions. They will require the consent of the departmental study abroad coordinator in order to participate. Full details of potential destinations can be found on both the departmental and Erasmus & Study Abroad websites. Application early in the preceding year (autumn term/very early spring term) is essential. There are also opportunities to study at the British Schools at Rome and Athens.

Programme Outcomes

The programme provides opportunities for students to develop and demonstrate knowledge and understanding, skills, qualities and other attributes in the following areas:

Knowledge and Understanding

A. Knowledge and understanding of:

1. the literature, thought, art and religion of antiquity,
2. a diverse range of primary materials.
3. a range of problems of interpretation and evaluation of primary materials,
4. a range of techniques and methodologies,
5. the reception of Graeco-Roman culture in the West.

Teaching/learning methods and strategies

Knowledge and understanding are gained through formal teaching (lectures, seminars, and individual essay feedback), recommended reading, and the writing of essays and a dissertation.

Assessment

Most knowledge is tested through a combination of coursework and formal examination. The Dissertation and oral presentations also contribute.

Skills and other attributes

B. Intellectual skills - able to:

engage in analytical and evaluative thinking about texts, sources, arguments and interpretations, independently estimating their relevance to the issue in question, discriminating between opposing theories, and forming judgements on the basis of evidence and argument.

Teaching/learning methods and strategies

Skills will be introduced in lectures, developed through reading, writing of essays, dissertation and examination

Assessment

Coursework and examinations, as well as in the dissertation

C. Practical skills - able to:

1. gather, organise and deploy evidence and

Please note - This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the learning outcomes, content and teaching, learning and assessment methods of each module can be found in the module description and in the programme handbook. The University reserves the right to modify this specification in unforeseen circumstances, or where the process of academic development and feedback from students, quality assurance process or external sources, such as professional bodies, requires a change to be made. In such circumstances, a revised specification will be issued.
