Programme information and content

The aim of the MSc Real Estate programme is to enable students to understand the workings of real estate markets and appropriate techniques applied in these markets. Graduates can equip themselves with the key real estate skills necessary to embark on a wide range of careers in the global real estate sector. It provides the maximum choice of subjects while drawing on the strengths of Real Estate at Reading. The programme is designed to be industry facing incorporating, real world case studies, field trips and a one week industry challenge. It is especially suitable for those graduates with a non-property related degree who wish to develop skills and knowledge in the real estate sector.

Module information

The programme comprises of 180 credits, allocated across a range of compulsory and optional modules. Compulsory modules are listed.

Compulsory modules

Additional costs of the programme

There are no textbooks which you must buy and students are encouraged to discuss the purchase of textbooks or other resources with the module convenor before purchasing. Some books may be available second-hand, which will reduce costs.

A range of resources to support your curriculum, including textbooks, electronic resources and computer facilities, are available through the Central Library and the Business School Academic Resource Centre.

Printing and photocopying facilities are available on campus at a cost per A4 page of £0.05 (black and white) and £0.30 (colour). Essential costs in this area will be low as most coursework is submitted electronically. Costs are indicative and may vary according to optional modules chosen and are subject to inflation and other price fluctuations.

The estimates were calculated in 2018.

Optional modules

The optional modules available can vary from year to year. An indicative list of the range of optional modules for your Programme is set out in the Further Programme Information. Details of any additional costs associated with the optional modules, will be made available to you prior to the beginning of the programme. Entry to optional modules will be at the discretion of the University and subject to availability. Although the University tries to ensure you are able to take the optional modules in which you have expressed interest this cannot be guaranteed.

Placement opportunities

There are no placements available on this programme.

Study abroad opportunities

Teaching and learning delivery

Teaching is organised in mixture of 40, 20 and 10 credit modules with each credit representing 10 hours of student effort. The relationship between class contact in the form of lecture, workshop, seminar, tutorial and student centred learning in the form of individual research and project / case study is varied across all modules and is set out in the individual module descriptors. All modules are designed to deliver level 7 outcomes although there is some undergraduate level technical material, especially within term 1 modules, for students with non-cognate academic backgrounds. Each module progresses through this material quickly and obtains level 7 student achievement as measured by the summative assessments in each module. Within each of these modules, the overall aim is to move towards students

being able to understand the knowledge obtained and be critically aware of the theoretical and practical implications of the material.

Total study hours for your programme will be 1800 hours. The contact hours for your programme will depend upon your module combination; an average for a typical set of modules on this programme is – 198 hours. In addition to your scheduled contact hours, you will be expected to undertake guided independent study. Information about module contact hours and the amount of independent study which a student is normally expected to undertake for a module is indicated in the relevant module description.
