Programme information and content

The Henley Business School MA Leadership programme aims to prepare programme members for senior leadership positions by:

1. Developing a holistic and integrated perspective of leadership concepts, leadership practice, and the context of leadership along with significant practical leadership development.
2. Developing knowledge and understanding of current and complex issues in leadership and management through access to latest research in leadership and leading edge leadership practice.
3. Developing the knowledge, understanding and skills for leadership around three core themes:
 - Practice: that effective leadership is about making decisions in a real organisational context
 - Responsible Leadership: that individual leaders need to develop self-awareness of their character, integrity and responsibility to others
 - Critical thinking: that effective leadership requires critical engagement of both current theory and practice
4. Providing individual leadership development opportunities to help programme members develop their leadership capabilities, their capacity for and commitment to continuous learning, and their capability to participate in and to lead teams in different situations.
5. Integrating theory and practice through an approach to assessment that combines academic rigour with practitioner relevance through work-based assignments, practical experiential learning in organisations and a leadership study / dissertation including research, theory, practice and personal learning reflections.

This stage 3 programme acknowledges and builds on the previous learning undertaken on the PG Diploma Leadership.
