

Race Equality at Reading Action Plan 2018-2021 (version 12th July 2018)

We present actions in 11 themes. Themes 1-3 are overall high priority action themes, whilst priority and/or feasibility within the other themes is indicated by the timeframe given – higher priority and more straightforward actions being due for completion first. If no specific month is given we work in academic years i.e. an action starting in 2020 and ending in 2021 would run from September 2020 until August 2021.

Theme 1 - Understanding and Celebrating Race and Ethnicity					
Motivation:					
<ul style="list-style-type: none"> 31% of staff and 15% of students identifying as minority ethnicity disagree that the “University recognises and celebrates the diversity of ethnicities and culture on campus”. In comparison only 9% of those who do not identify as being from a minority ethnicity disagree The TMP research project showed differences in willingness / confidence of people to discuss their culture and background, or to ask others.

<p align="center">Theme 2 - Ensure and promote the existence and knowledge of “report and support” processes for racial discrimination and harassment for staff and students</p> <p>Motivation:</p> <ul style="list-style-type: none"> • 18% of staff and 28% of students that identify as “ minority ethnic” as well as 7% of staff and 12% of students who don’t identify in this way have either witnessed or been the victim of racial harassment on campus • Only 7% of minority ethnic staff and 2% of minority ethnic students have reported an incident (and 1% of majority staff) • Only 52% of minority ethnic staff (compared to 74% f majority staff) think if they reported an incident then appropriate action would be taken. • REC Survey responses (free text) suggests that most staff and students don’t know how to report an incident, and that some wouldn’t feel comfortable doing so even if they did. • Amongst the students, there is a gender differential with female minority ethnic students being twice as likely as male minority ethnic students to have witnessed or experienced racial harassment on campus • Only 41% of female minority ethnic students are confident if they reported an incident that appropriate action would be taken compared to 71% male minority ethnic students 					
Policies and procedures around harassment are currently being updated and should be in place by autumn 2018.	2.1 Review and refresh processes and systems for reporting racial (and other) harassment for staff to ensure it is fit for purpose and sustainable.	2018	Autumn 2018	HR Assistant Director – Claire Rolstone (with input from relevant stakeholders). Theme 3 - Reiterate UoR commitment to “Zero Tolerance” for Racism. Note – Actions in section 2 above need to be in place in parallel with this

Motivation:

- Only 48% (64%) of minority students and 72% (82%) of majority students believe that the UoR pro-actively communicates that racially offensive behaviour is unacceptable in halls or university accommodation and in RUSU activities
- Free text comments in the REC 2017 survey highlighted this issue frequently

Theme 4 - Attracting and retaining diverse staff talent

Motivation:

- Academic staff at the UoR are un-representative of student body and figures are below the national census rate – we have set ambitious targets for staff representation but changes are too slow.*
- Non-academic staff are below the local area census rates - especially for Grade 4 upwards*
- Data in section 4a of the REC submission shows that numbers of Black staff is so low that there isn't even a talent pipeline forming to be considered for progression into senior management. This group requires special attention*

Situation / progress to – date, to be ongoing where indicated (O)	Actions proposed	Timeframe (Start & End)		Lead	Key success criteria / Outcomes
<ul style="list-style-type: none"> We only have one year of data from the Applicant Tracking System so it is too early to say whether there is any persistent bias though likelihood of shortlist and interview falls for Asian and Black applicants. We currently have no reliable data on reasons people leave the university and therefore cannot know if any BAME leavers are leaving because of an unfavourable culture or indeed perceived discrimination 					
Ultimate success criteria of whole theme: We meet our 2020 and 2026 targets for BAME representation for academic and professional services

Theme 5 - Support BAME staff progression and development					
<p>Motivation:</p> <ul style="list-style-type: none"> • <i>We have some Schools/ functions where BAME staff report difficulty in accessing training and development opportunities (staff survey and REC survey, TMPworldwide focus groups).</i> • <i>There are ethnicity differentials in access to effective PDRs (2017 staff survey)</i> • <i>TMPworldwide study suggests that some BAME staff (particularly UK) feel that there is a ceiling to their progression at the institution</i> • <i>A strong demand for leadership development and training via StellarHE and LFHE Diversifying Leadership programmes</i>

Theme 6 – Reduce ethnicity differentials in reward and recognition

Motivation

- *We have a considerable ethnicity pay gap including contributions from occupational segregation, and a difference in lump sum payments by ethnicity (both number and number of awards)*
- *Anecdotal reports to SAT members that effective exclusion from previous bus discount schemes for Grades 1-5 staff made accessing training or development opportunities difficult.*

Situation / progress to – date, to be ongoing where indicated (O)	Actions proposed	Timeframe (Start & End)		Lead	Key success criteria / Outcomes
We publish ethnicity pay gaps and any differences in bonus payments annually as part of our D&I annual report available publically on the website.	6.1 Continue to monitor ethnicity pay gap, to evaluate impact of other actions elsewhere in this plan that impact occupational segregation and promotion/progression on pay gap	2018	Ongoing – annually in January for D&I annual report	Claire Eckett (HR Reward and recognition project team)	The ethnicity pay gap within each grade will have reduced to less than 5% by 2021
	6.2 Publicise ethnicity differences in lump sums to HoS and HoF	2018 in meetings with HoS/HoF	July 2019	D&I Deans	Ethnicity differentials in lump sum payments will have reduced
	6.3 Work with any future HR reward and recognition project to ensure that ethnicity dimension is considered in any review.	2020	2021	Claire Eckett / Dean for D&I	Race and ethnicity is referenced throughout any future review
	6.4 Publicise availability of e.g. reduction in bus fares to ALL staff now that Bus+ salary sacrifice scheme has been replaced with Bus-to-work	Sept 2018	Sept 2018 but annually thereafter	Claire Eckett Santosh Sinha	Grades 1-5 staff report knowledge of Bus-to-work scheme.

Theme 7 - Improving BAME student attainment and progression

- *Student attainment gaps in good degrees for BAME students, and international students.*
- *Student REC survey reports many comments on segregation (by choice or forced) in student halls and in academic work groups.*
- *Staff report persistent challenges with group work in diverse cohorts of students – but there are examples of good practice that could be shared*
- *Early data suggests that schemes introduced as being particularly beneficial to disadvantaged (including BAME) students may not being taken up by BAME students.*
- *High proportion of commuter students identify as BAME*
- *UK Black male students are most likely group to enter with BTECS (20% of black males enter with BTECS) and have the lowest attainment (%)*
